Liberty Under Law—Equal Rights—True Industrial Freedom

A REWARD OF MERIT

Southern California's welcome to the 'round-the-world flyers should take a substantial form. The 'round-the-world flight belongs more distinctly to Southern California than to any other region. The flight was first conceived here. The planes were designed and built in Southern California. The flight officially started from Southern California. It has been brought to a successful conclusion under the command of an officer born in Southern California and taught to fly in Southern California. This is our party.

Southern California is proud of the achievement of the little band of heroes command by Lieut. Lowell Smith. It is so proud of them that no action designating another spot as the official end of the flight could take any of the glory away from us, or in any way dim our enthusiasm over their magnificent achievement.

The Times believes that the 'round-the-world flyers should receive from the citizens of Southern California a substantial token of our appreciation of their wonderful feat and that this may properly take the form of a purse of gold. The Times believes that every individual and community in Southern California should contribute his or its portion of this fund, which only thus can be made representative of Southern California as a whole. It would show in a very real way our appreciation of the epochal feat which, through almost superhuman endurance and courage, brought to the United States the imperishable honor of first girdling the globe by air.

The Times suggests that the civic officials, municipal bodies, business and service clubs and organizations of each Southern California town and city should immediately organize an intensive effort to secure a contribution, however small, from every citizen in its sphere of influence and turn their total fund over to a central committee which should hand the purse, without strings or reservations of any kind, to the flight commander on his arrival at Clover Field for distribution among the hardy survivors of the flight.

While the sum should, of course, be as large as possible, The Times believes that it is much more important that a large number of citizens should subscribe a small amount each than a few persons should contribute heavily. The extrinsic value of this gift to the flyers whom all seek to honor will be in direct proportion to the number of citizens who give to it.

The Times pledges its own support unreservedly to such a movement and expresses the hope that every organization in Southern California will join in a determined effort to make the plan an unqualified success.

EUROPEAN CRISIS DELAYED

Germany's Note to Allies Disclaiming World War Responsibility Held Up Indefinitely

BERLIN, Sept. 8.—The German Nationalist party's amazing stupidity, so it is now generally admitted, in throwing an international hand grenade into the League of Nations, has been "postponed." Chancellor Marx's note to the Allies saying that Germany washes its clean from guilt for the war "on account of technical and diplomatic grounds," was not sent today, "but the moment appropriate for the note must be kept in reserve," an official statement says literally.

DEPOSITORS CLAMOR AS BANKER DIES

Vice-President Offers His Fortune to Cover Losses, Then Collapses

PHILADELPHIA, Sept. 8.—Joseph C. B. Smith, vice-president and active head of the South Philadelphia State Bank, fell dead today under dramatic circumstances after pledging his personal fortune of more than \$100,000 to protect the depositors of the institution, which closed its doors Saturday.

A crowd which had clamored around him, howling for their money five minutes before he collapsed as he entered his home, tipped into his room and knelt on the floor by the bedside where the body lay. His sudden death caused a change of feeling among the thousands of depositors.

A warrant is out for the arrest of Edward A. Fisher, vice-president and treasurer of the bank, who has been missing since Friday afternoon. He is charged with the "embezzlement, theft and larceny of \$60,000 and upward."

WATER SUPPLY FAILS
TOMBSTONE (Ariz.) Sept. 8.—The city again is on a short ration of water, due to drought in the Huachuca Mountains, said to be the worst ever known by the city. The water supply has been cut off by the turning out of the town swimming pool.

VETERAN VISITS BORDER
NOGALES (Ariz.) Sept. 8.—Capt. Charles Montgomery of Los Angeles is visiting the Arizona border, where he served in the army as early as 1874. He states that he was in seventeen Indian campaigns after the Civil War.

LOEB'S SWAGGER VANISHES
News That Judge Caverly Has Decided Slayers' Fate Worries "Dickie," Document is Brief

CHICAGO, Sept. 8.—Worry rattled the forced composure of "Dickie" Loeb today when he learned that Judge John H. Caverly has decided definitely on his verdict in the Franks murder case.

Loeb tried hard to swagger before reporters who took the news to him in the jail, but he couldn't hide his nervousness. While he was talking he smoked one cigarette after another in feverish haste, and he could not sit still.

Wednesday morning he and Nathan Leopold are to learn whether or not they must hang, and his self-assurance seems to be evaporating.

"Oh, why worry?" he said, with forced bravado. "Worry isn't going to do any good. Judge Caverly has made up his mind, and my worrying isn't going to change it."

Leopold didn't meet the reporters. He was in the jail barber shop getting his hair cut.

VERDICT IS READY
Judge Caverly said last night that his work had been finished. Nothing remains but the reading of the verdict in the guarded courtroom Wednesday morning. If death is the judgment the execution probably will be set for October 24.

Under the law the boys could

Another Strain on Our "Hands Off" Policy

FOREIGN WARSHIPS LAND MARINES AT SHANGHAI

Ordered to Defend International Settlement; Gen. Wu Pei-Fu Aids Kiangsu Attack

SHANGHAI, Sept. 9.—Eleven hundred marines from foreign warships this morning were ordered to land in Shanghai at 4 a.m. and take up defensive positions on the boundary of the international settlement.

The order for the landing of the marines followed a new assault in the railway sector directly west of the city, bringing the fighting nearer than it had been before in a week of fighting between troops of the rival forces of Kiangsu and Chekiang.

Marines were ordered to be landed as follows:
Representing the United States, 250.
Representing Great Britain, 260.
Representing Japan, 400.
Representing Italy, 100.

VOLUNTEERS CALLED
At the same time the volunteer corps was ordered to mobilize at 8 p.m.

Gen. Wu Pei-Fu, chief of the military forces of the central government at Peking, and who also claims to have the support of a majority of the provinces, today began active participation in the fighting. Honanese troops, controlled by Wu, it is claimed by the Chekiang headquarters, took part in a heavy attack which the Kiangsu army launched last night against the Chekiang left wing on the Shanghai-Nanking Railway near Hwangtu.

This attack the Chekiang leaders claim was repulsed. The fighting was reported to be severe. A westerly wind carrying the sound of the firing to Shanghai, leading to the belief that the Chekiang force had been defeated and was retreating toward the city.

The residents of the foreign settlement were much relieved when the commanders of the foreign warships announced that marines would be landed at daybreak to protect their nationals.

Success was also claimed by the Chekiang headquarters in an attack which one of their armies, under the leadership of Gen. Chen Yao-san, with the assistance of the some Fukien troops, started against Kiangsu west of the Taihu (lake district) near the Chekiang-Kiangsu border. The objective of this attack, it was stated was Changchow, but the Shanghai-Nanking Railway where it was hoped to get behind the Kiangsu forces attack.

It is reported that the army, however, has some way to go to reach its objective having first to overcome the Kiangsu forces.

DOCUMENT IS BRIEF
Instead of the lengthy legal document expected, the all-important message to the two slayers of Robert Franks is not more than 1000 words. They were dictated to a trusted stenographer by Judge Caverly last Sunday. The sentence itself is not included in the opinion. It will be supplemented by the judge when he is ready to pronounce it.

Having finished the hardest part of the work Judge Caverly turned his attention to precautions to prevent scenes of disorder when he hands down the decision. Two squads of mounted police will be requested of Chief of Police Collins to keep crowds from gathering too near the court building.

MAINE, BAROMETER STATE, AGAIN GOES REPUBLICAN

Plurality of 37,000 Indicated for Brewster; Entire Ticket Wins as Balloting Sets Record

AUGUSTA (Me.) Sept. 8.—Maine, the "barometer" State, again has gone Republican. Ralph O. Brewster, Republican, has been elected Governor by perhaps 37,000 plurality over W. R. Pattangall, Democrat. United States Senator Bert M. Fernald has been re-elected by a plurality slightly larger than that given Brewster. Fernald's Democratic opponent was Fulton J. Redman.

Based on incomplete returns, the four Republican Congressmen have been re-elected by slightly increased pluralities over two years ago. The State Legislature remains safely Republican in both branches as the Republicans have made a clean sweep.

VOTE SETS RECORD
Democrats made a vigorous campaign and their shouting, added to the pleasure of the Republicans to back up Coolidge and the national administration brought out the largest vote in the history of the State. A total vote of about 224,000 is indicated.

Returns from the first 170 of 223 precincts gave Brewster 22,384 and Pattangall 13,922. As other precincts reported the Brewster figure rose rapidly to 47,993 against Pattangall's 21,752. The same precincts gave Senator Fernald 45,936 and Redman 29,116. When 661 precincts had reported Brewster's vote stood at 122,217 and Pattangall's at 86,995.

If the ratio established by these returns should be followed, Mr. Brewster's plurality will be 37,000. The normal Republican victory in Maine is around 28,000—the figure of two years ago.

The same precincts gave Fernald 121,207 and Redman, 78,701 for United States Senator. In these precincts, about 10,000 more votes were cast for Governor than in the election four years ago. The missing precincts included the city of Portland.

DAVIS SEEN OUT OF RUN
Ranked as Third by Butler

Republican Chairman Says Democrats Are Aware of Bad Slump

Declares Coolidge is Making Headway in Territory of La Follette

CHICAGO, Sept. 8.—William M. Butler, chairman of the Republican National Committee, returned to national headquarters here today, conferred with his aides and party leaders and then issued a statement declaring "the one fact plan to all observers of this campaign is that John W. Davis, the Democratic Presidential nominee, has been eliminated from the contest."

"Mr. Davis ranks third in the country over almost without exception," the statement continued. "This is an extraordinary state of affairs for a period two months before election. Chairman Elihu Shaver, in Washington, has admitted there is a half-truth in this statement and he will not doubt bend his every energy to correct it."

DAVIS JUMP SEEN
"It is impossible that Mr. Davis could grow much weaker, therefore, I expect that he will have a new wave by October 1. That, however, will come by the natural return to his own party of persons who, temporarily, are following the Socialist third party ticket. But at the same time, we will get very considerable number of these voters who will be attracted by the plain common sense and honesty of the Coolidge candidacy."

"The official leaders of the Democratic party, if I have read their newspaper organs aright, already have sensed this situation. We have been advised in New York that Democratic strategy now calls for the abandonment of the North and Western and Pacific States and the intensifying of the campaign in the East in the hope of creating a combination of the Solid South and Eastern States electoral votes."

"But even their most optimistic supporters do not attempt to claim New York and New Jersey and when Vanoe McCormick, as a stalwart, attempted to talk hopefully of Pennsylvania as being won from Republican control, the Democratic Party laughed at him."

On the other hand, Mr. Brewster and the Republican Party denied that the Klan was an issue and laid stress on the fact that it is a Presidential year, contending that the vote for Brewster would help in the election of President Coolidge.

CLAN ISSUE DENIED
A feature of the campaign was the presence here of Gen. Charles G. Dawes of Illinois, candidate for Vice-President, at a Republican rally in which he denounced the Klan. Mr. Brewster, spoke from the same platform.

The principal speaker from abroad on the Democratic side was United States Senator Oscar W. Underwood, Alabama, whose nomination for the Presidency was secured.

(Continued on Page 2, Column 5)

RAILROAD PLANK HURTS BOB

La Follette's Government Ownership Pledge Losing Farm Votes; Tax Burden is Feared

FARGO (N. D.) Sept. 8.—Senator La Follette is finding government ownership a white elephant out West. It may be a swell feature of the circus parade in centers where the railroad brotherhoods are strong, but in the tall grass the suspicion is growing that it would eat the farmer out of house and home.

Where Bob's railroad plank may make votes in Cleveland, where he has no chance of getting the electoral vote, it is likely to lose him votes in North Dakota, where electoral vote his followers have been counting on. So it's more of a liability than an asset.

Taxes and interest have been the greatest burden on agriculture since the price slump back in 1920. La Follette, North Dakota, under the Nonpartisan League has several years of experimenting with "advanced" stuff. The sinned voters now seem to fear the first. Even among men in the Twin Cities who were leaders in Nonpartisan League activities and are now working tooth and nail for La Follette, one uncovers lukewarmness on government ownership.

Among the farmers, even in regions where discontent surged the strongest last year, the public ownership proposal is a dismal blank. The farmers want more other things lower freight rates and lower taxes, and sentiment among them is widespread that government ownership would bring results precisely the reverse.

The general view gathered from the last two weeks is that government ownership would vastly increase the cost of running the "road" and during the war, and that agriculture would get it in the neck at least three ways: in higher freight rates, decreased service and transportation efficiency, and a crisis of new taxes to replace taxes which would no longer be collected from the railroads.

RAIL PLANK UNPOPULAR
Bob, it appears, won't do much surf riding on his railroad plank out here. Criticism of the government ownership idea comes not alone from the Republicans but from some of the groups closest to La Follette. North Dakota, under the Nonpartisan League has several years of experimenting with "advanced" stuff. The sinned voters now seem to fear the first. Even among men in the Twin Cities who were leaders in Nonpartisan League activities and are now working tooth and nail for La Follette, one uncovers lukewarmness on government ownership.

Among the farmers, even in regions where discontent surged the strongest last year, the public ownership proposal is a dismal blank. The farmers want more other things lower freight rates and lower taxes, and sentiment among them is widespread that government ownership would bring results precisely the reverse.

The general view gathered from the last two weeks is that government ownership would vastly increase the cost of running the "road" and during the war, and that agriculture would get it in the neck at least three ways: in higher freight rates, decreased service and transportation efficiency, and a crisis of new taxes to replace taxes which would no longer be collected from the railroads.

TO DRIVE IT HOME, the argument is being broadcast in Minnesota by Republicans that if the government bought the railroads, now valued at about \$20,000,000,000, it

RENTALS

Teachers and students hunting rental accommodations can quickly and easily find what they want in the location they desire by consulting Times Rentals. Besides the wide variety, rental ads in The Times are conveniently listed as to kind—"rooms," "houses," etc.—and further sub-divided according to "districts."

MORE TRAINS TO SOUTHLAND

Espee Will Put on Three New Ones from Chicago

Improved Palace Service to Begin Next Winter

El Paso Road Merger is Not Opposed at Hearing

BY ROBERT B. ARMSTRONG
"Times" Staff Correspondent
WASHINGTON, Sept. 8.—Plans to bring Southern California closer to the East and Middle West through establishment of three new fast trains between Los Angeles and Chicago were announced today by L. Spencer, director of traffic for the Southern Pacific system during a hearing before the Interstate Commerce Commission. The new service will be effective this winter when the railroad will have special equipment ready to give travelers to and from California unusual attention in comfort and speed. Sixty-eight hours between Los Angeles and Chicago with all the comforts of a palace including several baths, not one of which is a toilet, and a dining car with a chef and waiter, this information was brought out in testimony before Charles D. Mahaffie, director of finance for the Interstate Commerce Commission, who is conducting the inquiry into the proposed acquisition of the passenger trains stop at Phoenix and hoped that the commission would specify this point in granting the applications.

THROUGH SERVICE

The testimony showed that the project of the Southern Pacific contemplated through service. Giving the details of the new California passenger service, Mr. Spencer stated that the Rock Island-El Paso and Southern Pacific route is the only route by which the Southern Pacific can maintain the same passenger train schedules between Chicago and Los Angeles as maintained by the Santa Fe route and the Union Pacific route.

Continuing Mr. Spencer said: "It is the route of the Golden State Limited, which is operated daily in each direction between Chicago and Los Angeles upon an schedule of about sixty-eight hours. It is the only route passing through El Paso by which through passenger trains are operated between Chicago or Kansas City and Southern California."

Beginning next winter this service will be increased and improved in character. The Golden State Limited will be composed entirely of new equipment consisting exclusively of Pullman cars, a through dining car, club car with smoking room, barber shop and bath with maid and manicure service.

MAY BE EXTENDED

"In addition to standard sleepers from Chicago, St. Louis and Minneapolis to Los Angeles, it will carry standard sleepers from Chicago to Santa Barbara and San Diego and will run on a schedule of sixty-eight hours and thirty-five minutes westbound and thirty-eight hours eastbound between Chicago and Los Angeles. The second through train now operated between Kansas City and Los Angeles will be continued with standard Pullman sleepers and coaches, and dining car attached at all meal hours and will probably be extended to Chicago."

"A third train will be inaugurated, which will carry standard sleepers and coaches between Chicago and Los Angeles and tourist sleepers between Minneapolis and Los Angeles and between Chicago and Los Angeles with dining car attached at all meal hours."

"The best and most frequent passenger train service which has ever been maintained by the El Paso route will thus be provided to the great benefit of El Paso and all of the territory west thereof, not only by the direct use of this enlarged and improved service but by the results of the exploitation and the opportunities of the proposed through transcontinental passenger trains to visit all of the intermediate country, especially with the ten-day stopover privilege, which is granted on through tickets."

TELL OF NEEDS

The development of the Imperial Valley in recent years was stressed by all railroad witnesses. Both Julius Kruttschnitt and Mr. Spencer were emphatic in their declarations that the Southwest would need these additional railroad facilities to meet the growing demand for freight and passenger lines.

State commissioners and representatives of civic organizations intervened in support of the joint application. Their witnesses set forth the advantages of the proposed movement and urged construction of the new line from Picacho, forty-three miles west of Tucson, running northerly fifty miles to Chandler on the Arizona Eastern, a subsidiary of the Southern Pacific. Several other short lines will be built making a total of 165 miles of new track.

For some time there has been some concern manifested by the railway labor unions as to the train crews and the effect of the merger. Mr. Kruttschnitt, chairman of the Board of the Southern Pacific, in response to an inquiry of Mr. Mahaffie, stated that the train crews and their seniority rights would inflict no hardships on the men, as it is expected to use their services. The details of this feature have not been completed, it was said.

FOURTEEN RIDE ON ONE TICKET

Woman Has Thirteen Tots Under 5; Forces It By Family Bible

(EXCLUSIVE DISPATCH)
PRAIRIE DU CHIEN (Wis.), Sept. 8.—Railroad rules are made to keep so when Mrs. Frank Scott of Jewell, Iowa, presented one ticket to a C. B. & Q. train conductor today for herself and thirteen children, all under 5 years of age, the conductor gasped, but took the ticket. Mrs. Scott carried the family Bible to prove that all the children are her own. She is the mother of nineteen children. There are five sets of triplets and two sets of twins. The children occupied five double seats in the train. They were on their way to Regina, Can.

NEW YORK SEES CHASE FOR BANDIT

Captured Man Says He is Berkeley Graduate; Tells Police He Was Hungry

(EXCLUSIVE DISPATCH)
NEW YORK, Sept. 8.—Broadway received a thrill today when a policeman with drawn pistol chased an alleged hold-up man through the heart of Times Square district and finally captured him. Two shots were fired in the air and foot pedestrians hurried for safety in doorways. Jack Schneider, 18 years of age, had just opened Ted Finner's haberdashery shop on West Forty-fourth street. His first customer was a swarthy youth of 20 years who produced a shiny pistol and a greeting of "stick 'em up." Jack did as requested and the intruder bound the clerk's hands and feet. The policeman, who was only 45 in the cash register and Schneider said his unweelcome visitor departed with that.

The clerk rushed out, calling for police. Policeman Dunlavy spotted the robber rounding a corner and fired three shots. The robber, who was a Berkeley graduate, fled skyward failed to halt the fleeing youth. Dunlavy is a sprinter, and after running two blocks made a football tackle and caught his man.

The youth said he was Albert Seville, recent graduate of Berkeley, arriving here from California a week ago. He said his father was a government official at Cadiz, Spain.

Seville said he was broke and hungry. He admitted the hold-up. He was charged with attempted robbery and carrying a firearm.

RAINBOW VETERANS PICK LOS ANGELES

(BY A. P. MURPHY)
SACRAMENTO, Sept. 8.—The California unit of the Rainbow Division of the A.E.F., in the World War, in its closed session here yesterday, elected C. L. Tibbels, Sacramento, as its president. Other officers chosen were: James S. Clausen, Sacramento, vice-president; Frank Lytell, Los Angeles, secretary-treasurer and editor of The Recall, the organization's paper; William Kelly, Sacramento, sergeant-at-arms; Harold Percival, Los Angeles, chaplain; Frank Badler, Los Angeles, historian; A. J. Anderson, San Francisco, and Ed Regan, Los Angeles, members of the board of directors. The convention endorsed the National Defense Day. Los Angeles was selected as the city for the next State convention.

BROOKHART NAME OFF LIST FOR LA FOLLETTE

(BY A. P. MURPHY)
CHICAGO, Sept. 8.—Inclusion of the name of Senator Smith W. Brookhart of Iowa in the list of La Follette Presidential campaign speakers was an error, David K. Niles, director of the La Follette speakers' bureau, announced today. It was added that there was no authority to include the Senator's name in the list.

SCHOOLS OF STATE GIVEN INDIAN FUND

Secretary of Interior Allots Money to Cover Children's Tuition

(EXCLUSIVE DISPATCH)
WASHINGTON, Sept. 8.—Several thousand dollars was allotted to the schools of California by the Secretary of the Interior today to cover claims for tuition of Indian children during the fiscal year of 1925.

Action in allowing the claims was based on an act of Congress approved June 7, 1924, covering services rendered by public schools for the instruction of Indian children at the request of superintendents of Indian agencies in which the public schools are located. The claims allowed by counties and districts follow:

Hemet Valley schools, Miamon agency, \$10,000; Mountain Springs district, \$618.

Butte county, Mountain Springs district, \$618.

Alpine county, Lincoln district, \$425.

Marin county, Marshall district, \$231.

Colusa county, Cachil Dehe district, \$347.

Mariposa county, Buck Meadows district, \$146.

Butte county, Big Bear district, \$481.

Mariposa county, El Portal district, \$120.

Butte county, Atkins public district, \$233.

Amador county, Aetna district, \$18.

Placer county, Auburn district, \$52.

Mariposa county, Wapadito district, \$115.60.

Eldorado county, Ray district, \$144.

Mariposa county, Pigeon Creek district, \$143.

Butte county, Moravtown district, \$149.

Mariposa county, Buck Creek district, \$112.

Couzens Denies He Ever Voted With Radicals

(BY A. P. MURPHY)
DETROIT (Mich.), Sept. 8.—Challenging as bunk the statements made during the campaign attacking his Republicanism, Senator James Couzens, standing for nomination at tomorrow's State-wide primary election today, in a last-minute statement, declared he had never voted with the La Follette bloc in Congress. He added, however, that he would not hesitate to do so if he thought the bloc right. He charged that "millions are being spent" to keep him out of the Senate "and no money has been spent to put me there."

Senator Couzens, who was appointed to the Senate by Gov. Grosbeck to succeed Truman H. Newberry, resigned, is opposed for nomination by Federal Judge Arthur J. Tuttle.

OKLAHOMA OIL MAN IS HURT IN AUTO SMASH

(EXCLUSIVE DISPATCH)
PHOENIX, Sept. 8.—Harry C. Crawford, an Oklahoma oil man, is in the hospital at Maricopa with four broken ribs, a broken right arm and other injuries received when a car in which he was riding with R. H. Stevens of Oklahoma overturned on the road five miles south of Gillespie Dam. Mr. Stevens, however, was not hurt. Crawford was forced into the sand by a speedster car and that his machine turned over on its side before landing in the ditch. The two men left Los Angeles last Wednesday for their home, taking the Yuma route.

ATTACK ON PRIEST IS LAID TO KU KLUX KLAN

(BY A. P. MURPHY)
CHICAGO, Sept. 8.—Two men, one of them armed with a knife, broke into St. Barnabas' parish house in Beverly Hills and attacked Father Albert Dolan yesterday, but were driven off by Rev. Thomas Hurley, priest in charge of St. Barnabas. Father Dolan declared he believed he was the victim of a Ku Klux Klan attack. He was severely cut on his arm and on his hands in a struggle with the assailants. A local controversy over the erection of a new church building was believed by the priests to have been connected with the attack.

Get The New

The East is proud of its conservatism—the West of its progressiveness.

The East has a tendency to cling to old equipment.

The West profits by a better policy—when new equipment will do the thing better it gets it.

It has the courage to make the change.

And so the West leads in the character of its equipment.

It gives the public better service and makes more money.

There may be more profitable equipment than that you are using.

Better find out.

A CHUCKLE FOR EVERYBODY

LOCAL LAUGHS

Each week The Times produces a film entitled "Local Laughs" consisting of the funniest local jokes submitted by local people. Weekly prizes are paid of \$5, \$10, and (twelve of \$1 each). A list of theaters showing the film, together with rules for submitting jokes are given daily in a coupon in The Times. Prize-winning jokes, and names and addresses of winners, appear only on the screen. Jokes receiving honorable mention will be given a place of honor on The Times comic page each week-end, and each of these contributors will receive a souvenir of acknowledgment.

More (upon being refused entrance to a white church): I don't pray over it and the Lord advised me—Keweenaw mine. I've been trying to get into that church myself for ten days." Mrs. Charles Hovins, 1445 West Vernon Ave., City.

Pat: What are your charges for a funeral notice in the paper? Editor: Fifty cents an inch. Pat: The jokers an' Mike was six feet high. A. Paulson, box 85, Van Nuys, California.

Rastus, aged 85; Mammy, aged 80 at grave of youngest child—aged 60: Rastus: I dun told you w'd never raise one child. Mammy: I dun told you w'd never raise one child. W. M. Everett, Fillmore, Calif.

Little Helen: Mother, I want to get married. Mother: Don't talk so foolish, you are too young to talk about marriage. Helen: Well, give me a piece of bread and butter then. N. L. Serany, 620 South Grand, City.

John: Did you ever meet a man who made you feel as if he was secretly laughing at you? Jim: Yes—my wife's divorced husband. E. Huling, 845 S. Cloverdale Ave., City.

"Yes, I name all my children with an 'H'—Harry, Harriet, 'emery, 'eward all except Hollo—here begins with an 'H'." W. M. Everett, Fillmore, Calif.

THE GUMPS—LOOK OUT FOR THE CABOOSE

WELL, THE BIG SURPRISE IS FIXED—THE CAR IS ALL READY.

THAT'S GREAT—I HOPE YOU GOT A NICE COMMON-PLACE LOOKING CAR—I WANT IT TO LOOK AS COMMON AS A RED BANDANA HANDKERCHIEF—I WANT VOTES, NOT COMPLIMENTS.

THIS IS THE KIND OF CAR THAT MAKES THE COMMON PEOPLE REALIZE YOU ARE JUST PLAIN FOLKS LIKE THEY ARE—

I WANT EVERYONE TO KNOW I'M NOT THE KIND OF A BIRD TO LET A LITTLE SUCCESS GO TO MY HEAD—I MAY HAVE THAT ARISTOCRATIC MANNER BUT AT HEART I AM AS PLAIN AS A SCISSOR GRINDER.

OF COURSE A LOT OF PEOPLE WILL EXPECT TO SEE A MAN IN YOUR POSITION TRAVEL IN A MAGNIFICENT PRIVATE CAR—

LET THE OTHER FELLOW HAVE THE PRIVATE CAR—A PLAIN LITTLE CABOOSE WILL GET ME TO THE WHITE HOUSE FASTER THAN A MILLIONAIRES TRAVELING JEWEL CASE—IM A GUY TRYING TO GET VOTES FROM PLAIN PEOPLE.

Suburban Heights. "Let The Passengers Off!"

DECIDES HE'S GOING TO GET A SEAT ON THE TRAIN THIS MORNING OR BUST—HE'S SICK AND TIRED OF LETTING THE OTHER FELLOWS BEAT HIM TO IT EVERY DAY.

JUST BECAUSE HE'S LITTLE THEY THINK THEY CAN SHAKE HIM AROUND BUT HE'LL SHOW THEM—THAT'S JUST AS MUCH FOR HIS FARE, NO REASON WHY HE SHOULD ALWAYS BE THE ONE TO STAND.

HOPES FRED PERLEY WON'T GET THROUGH HIS STORY TELL THE TRAINS IN—THAT'D GIVE HIM A LITTLE START ON THE GANG.

AS TRAIN PULLS IN PEERS TO SEE WHETHER BAGGAGE CAR IS FORWARD OR BACK TODAY AND TAKES HIS POSITION ACCORDINGLY.

AS TRAIN SLOWS DOWN OBSERVES WITH SATISFACTION THAT FRED IS JUST FINISHING STORY—HE'S GOT THE JUMP ON THEM THIS TIME.

GRABS TRAIN JUST AS TRAIN PICKS UP A LITTLE SPEED AND HAS TO TROT THE LENGTH OF PLATFORM—BUT HE WON'T LET GO NOW FOR A MILLION DOLLARS.

TRAIN STOPS—SWINGS HIMSELF UP ON STEPS WITH TRIUMPHANT GAZE AT REST OF CROWD. THE FIRST ABOARD, BY GEORGE!

BACKS HASTILY DOWN STEPS AS CONDUCTOR BELLOW'S "LET THE PASSENGERS OFF PLEASE."

IN THE DISSEMBARKING OF PASSENGERS GETS GRADUALLY EGGED TO THE OUTSKIRTS OF CROWD WHERE HE WHISPERLY REFLECTS THAT THERE'S NO USE TRYING TO BEAT FATE.

GASOLINE ALLEY

GOLLY, SHEEZIX, I FORGOT TO ORDER MILK. RACHEL ALWAYS ATTENDS TO THAT.

I'VE COME FOR THE LAUNDRY.

I DON'T KNOW ANYTHING ABOUT IT. RACHEL FORGOT TO TELL ME.

I WONDER WHAT BECAME OF THE CABBAGE? I MEANT TO ASK RACHEL. BECAUSE SHE LEFT.

I JEE GANT HARDLY WANT TELL I SEES MY HUSBAND AN' MY BUDDY AN' THE REST OF 'EM.

AND RACHEL IS STILL ON HER WAY TO SEE THE FOLKS DOWN TOWN.

WINNIE WINKLE, THE BREADWINNER: The Bawling Out

SO THAT OFFICE BOY IS LATE AGAIN, EH?? WHY DON'T YA GIVE HIM A GOOD BAWLING OUT WHEN HE COMES IN THIS MORNING??

GOOD HEAVENS! HERE I AM, UP TO MY EARS IN WORK AND THE BOSS BLAMES ME IF THE BOY IS LATE!! WHY DON'T HE BAWL THE KID OUT HIMSELF??

SO YOU GOT HERE AT LAST!! WELL—WHAT'S YOUR EXCUSE FOR BEING LATE THIS MORNING??

—ER—ER—I COULDN'T HELP IT THIS MORNING—HONEST!! TH' DOCTOR BROUGHT A NEW LITTLE SISTER TO OUR HOUSE!!!

WELL, IT'S ALL RIGHT THIS TIME, BUT DON'T LET IT HAPPEN AGAIN!!!

REG'LAR FELLERS

IT WAS A PRETTY GOOD PARTY MOM! I HAD A PLATE OF ICE CREAM AN' THREE GLASSES OF LEMONADE AN' A BANANA AN' CAKE.

I HOPE YOU DIDN'T EAT MORE THAN ONE PIECE OF CAKE!

NO MOMMA! I ONEY HAD ONE PIECE. THAT'S ALL!

MRS DUFFY WOULDN'T GIMME ANY THE SECOND TIME I ASKED!

ALONG FIGUEROA STREET

WELL—WELL—I IF IT ISN'T OLD HEM—HOW ARE YOU?

YOU OLD BARGAL COME RIGHT OUT TO THE HOUSE WHERE WE CAN HAVE A REAL CHAT BY OURSELVES.

IT'S A LONG TIME SINCE WE SEEN AMY.

THERE'LL BE SOME SURPRISE FOR HER SINCE SHE'S OFTEN ASKING ABOUT YOU.

HE HADT CHANGED A BIT, HAS HE—?

YOU SURE LOOK FINE, AMY.

YOU'RE JUST IN THE TO JOIN SOME FRIENDS I BAWLED FOR DINNER TO SERVICE, HEY?

A PLEASURE, I'M SURE.

PLEAS'D TO MEETCHA—

HOW DO YOU DO?

POST-I-RO.

WHAT'S THE BIG IDEA—BAWLING PEOPLE TO DINNER WITHOUT TELLING ME—?

HAROLD TEEN—SPLITTING HAIRS

THE SHEIK HAS BEEN PAUFLY SWEET OF LATE—I BELIEVE HE'S GOING TO PROPOSE!

HERE COMES IDNA FISHER! SHE'S A NEWLYWED—JA GOING TO GET HER IDEAS ON MARRIED LIFE!

YOU CAN'T LIVE WITH THEM AND YOU CAN'T LIVE WITHOUT 'EM—BELLING—IT'S A GAME OF GIVE AND TAKE—MOSTLY TAKE!

TELL ME, DID YOUR HUSBAND BLOW YOU FLOWERS BEFORE YOU WERE MARRIED?

MY DEAR, GEE—I HAD NO HUSBAND BEFORE I WAS MARRIED!

TUESDAY MORNING.

**"ANGEL FACE" IS
HARDENED YEGG**

Brooklyn's Choir Boy Thief
Now Old in Crime

Thousand Burglaries Laid to
Youthful Perver

Prison Life Rubs Angelic
Bloom from Face

(REUTERS DISPATCH)
BROOKLYN (N. Y.) Sept. 8.—Raymond Beck, once the "angel-faced," but now, the bloom of innocence gone, a hard-bitten criminal and Brooklyn's most notorious burglar, was transferred from the Kings County Hospital to Grand Avenue police station because the police are taking no chances in having him escape. They wanted him where he would be behind bars.

Beck, out of Sing Sing eleven months and with the prison hall-mark still upon him, was captured red-handed at 1804 Bedford Avenue yesterday, after a rough-and-tumble battle with two householders. He first denied his identity, which is an old trick with him—but, confronted by telltale fingerprints, admitted he was Beck.

ANGEL FACE GONE

A clip on the head from a limping man, a tool of trade—had laid open his scalp and sent him to the Kings County Hospital, where he was under constant guard of two men.

His head bandaged, his hair cut short, his ears sticking from his head like those of the "yellow kid" in the comic strip, the term "angel face" was a misnomer. Prison life had rubbed off all the bloom. He was uncommunicative.

He has admitted ten burglaries, but the police believe that in the eleven months he has been out he has committed many more. They took him with them today to see if they could get him to point out some of the places.

TAKEN BY CITIZENS

Beck was caught in the apartment of Charles Duckman last night by the latter and a friend, Carl Herberg. The two had found the apartment door jammed. In the darkness they saw dimly the figure of a man who stepped back into the shadow, but Duckman snapped on the electric light and asked him what he was doing. Beck said he was a detective, but when asked to show his shield started to run out of the apartment.

Since the death of Billy Mitchell, the Masonic burglar, Beck is Brooklyn's most notorious thief. It would probably not be an exaggeration to say that since he first started out his career of crime, fifteen years ago, he has committed more than 1000 burglaries.

From a plianting boy he has developed into a desperate criminal. No look is secure when Beck starts work on it, for he has an uncanny cunning in opening the most difficult with such implements as a needle and a buttonhook.

HAZARD TO SOCIETY

His brightness makes him an additional community hazard. As a boy he was prematurely so. In the reformatory he was considerably above the average in mentality, and in all his studies, some mathematics—on which most criminals fall down—he was unusually proficient. He was elected to make cabinets, and he was a good cabinet maker.

It was in 1903, when he attended school and sang in a Sunday-school choir, that he first got into difficulties through the theft of a gold watch. He was then 11 years of age and his round, cherubic face, his frank, pleading blue eyes, red cheeks, fair hair and general air of candor fooled a lot of people and earned for him the sobriquet "angel face."

The image of the angel has since been clouded over. He was also a ready weeper and the tears were, upon a wide wheeler, he thought a little salt water would answer the purpose.

In the intervening years between his first crime and his latest arrest he has escaped from the New York Juvenile Asylum four times. He has been in Elmira and State's prisons.

OKLAHOMA MILL COMPANY TO
ASK FEDERAL PERMIT
TO BUILD ELEVATOR

(REUTERS DISPATCH)
OKLAHOMA CITY (Okla.) Sept. 8.—The second important flour milling concern in Oklahoma to apply for a United States warehouse permit is the Yukon Mill and Grain Company of Yukon. At a recent meeting of the board of directors the board was authorized to obtain an amendment to the charter enabling it to engage in the grain elevator and warehouse business. The amended charter was signed by J. F. Kroulitz, president; F. L. Kroulitz, secretary, and J. P. Dobry, director.

The Yukon company has a capital stock of \$1,200,000, par value \$100. Of this \$1,000,000 is common stock, and 1000 shares preferred, the latter securing an annual dividend of 10 per cent. Holders of common stock have management of the business. The company operates one of the largest flour and cereal mills in the Southwest.

**SCHOOLS BADLY HIT
AS TEACHERS RESIGN**

(REUTERS DISPATCH)
BIRBEE (Ariz.) Sept. 8.—With the opening of school at hand, Supt. John A. Sexton of the Bisbee schools announces resignations from teachers who have taken positions elsewhere or who lately have decided against return. In several cases the teachers are said to have signed contracts. The superintendent is busily looking for people to fill the vacancies. J. C. Snider, for twelve years with the Bisbee schools, for much of the time principal of the high school and superintendent of schools for a part of last term, has left for New York, where he will take a course in Columbia University.

Husband's Alienation Suit
for \$100,000 is Settled by
Compromise

(REUTERS DISPATCH)
POUGHKEEPSIE (N. Y.) Sept. 8.—Just how much Stuart Bales, wealthy manager of a cough-drop factory here, paid to settle the alienation suit filed against him by William Russell of New York City is engrossing society folk in Dutchess and Westchester counties. News that the suit had been compromised out of court came during the day.

Mrs. Elsie Hochman Russell of Yonkers was the most interesting figure in the action, in which her husband sought \$100,000 from Bales. Bales' constant threat that he had alienated the affections of Mrs. Russell. Mrs. Russell is the daughter of the late F. W. R. Hochman, a chemist and partner for years of John E. Andrus, one of the fifteen richest men in the country. Mrs. Russell is 35 years of age, and attractive. She lives now with her mother.

Russell charged that his wife went motoring with the maker of cough drops, and that he wrote her letters that were as saccharine as the coating of any cough drop. Mrs. Hochman took the cudgels for her daughter and insisted that Bales was merely a friend of the family.

John E. Mack, the attorney who successfully piloted Baby Guy Stillman through the mazes of the divorce suit, represented Bales in the alienation case. Neither Mack nor any of the other counsel would say what it cost Bales to have the case dropped.

**STRONG LUNGS SAVE
BANKROLL IN HOLD-UP**

VICTIM'S SHOUTS FOR HELP
FOIL BANDIT DESPITE
MENACING PISTOL

A lusty vocal apparatus saved I. Granovsky his money and jewelry late Sunday night when he was held up by an armed bandit in front of his home at 2580 Cincinnati street, according to a report filed at Central Police Station yesterday.

Mr. Granovsky told the police he just had returned home from a downtown theater with his wife when he was stopped by the highwayman in front of his home. The bandit demanded his money and jewelry.

Despite the close proximity of a pistol muzzle Mr. Granovsky yelled loudly for help. Several of his neighbors were aroused and rushed to his aid. The bandit, cursing Mr. Granovsky's shouts, fled empty-handed.

**KIDNAPED INFANT IS
RETURNED BY GIRLS**

POLICE MYSTIFIED BY ACTION
OF WOMAN WHO TOOK
CHILD SATURDAY

(REUTERS DISPATCH)
NEW YORK, Sept. 8.—Frederick Marshall, the 6-month-old child kidnaped Saturday afternoon by a comely, bobbed-hair woman, was restored to his parents yesterday by the police, who still are mystified by the case. The child was left early in the afternoon with two 14-year-old girls a mile from the parents' home.

The girls told the police a slight, very old woman walked up to them and asked them to hold the baby while she went to a near-by bakery. When she did not return the girls turned the baby over to a neighbor woman, who in turn took it to a police station.

From the girl's story the police developed the theory that the woman who left the child with them was the mother of the kidnaper, and that the latter induced her mother to aid her in returning the baby after losing her nerve when she read in the newspapers of the widespread hunt for the stolen child.

BUSINESS REVIVES

(REUTERS DISPATCH)
KANSAS CITY, Sept. 8.—Two hundred Leavenworth (Kan.) coal miners, who have been idle throughout the summer months, started to work September 4. Two furnace factories, employing hundreds of men, resumed operations and shops of the Great Western Stove Company also have been reopened. Leavenworth flour mills are running night and day.

DRUG ADDICT JAILLED

Three months in the Orange County Jail was the time of a recent given Eugene Rado by Federal Judge Bledsoe yesterday on the former's plea of guilty to having illegally purchased an ounce of morphine. Rado admitted being an addict and as an excuse said he acquired the habit in a hospital in France during the World War.

**LONG TERM IN PRISON
FOR FIFTY-CENT THEFT**

(REUTERS DISPATCH)
VANCOUVER (B. C.) Sept. 8.—H. LeMesurier, postal clerk in this city, was sentenced to three years in the penitentiary here for theft of 50 cents from a letter he was to deliver. He had fourteen years of good conduct to his credit in the service and had never been charged with any offense in this time. No other cases of missing money had been reported on his run.

**ILL HEALTH CAUSES
WOMAN TO END LIFE**

Despondent because of ill health, according to the police, Mrs. Atkins, 65 years of age, ended her life early yesterday morning at her home at 1133 Fifth Avenue by inhaling gas. When her mother did not appear, H. B. Atkins went into her bedroom and found her unconscious. She was taken to the Receiving Hospital, where efforts to resuscitate her failed.

BETTER STANDARD SOUGHT

(REUTERS DISPATCH)
TUCSON (Ariz.) Sept. 8.—In the University of Arizona this year there will be another move toward raising requirements for admission or for maintenance of student standing, to lift the college to the level of similar high-class schools in the United States. Last year a large number of students were dropped after the first semester.

RESIST TAX PAYMENT

(REUTERS DISPATCH)
KANSAS CITY, Sept. 8.—An injunction to stop the operation of the gasoline tax in Kansas City, Kan., was filed in the Wyandotte County District Court yesterday by filling-station owners. The tax, one cent a gallon, became operative Monday. The petition said the injunction was asked "in behalf of all the other filling-stations in the city."

There are a lot of people who think that just because I am offering hand-tailored suits at these prices that the suits are cheap. I want to explain where they are all wrong. I've spent a good many years feeling out what the average man wants and I decided first of all he wanted regular cloth and regular tailoring at reasonable prices. The only way to give these to him was to get a big enough volume so that it wasn't necessary to cheapen the suits. I went after that and I've got it. If you want to make me prove it, I'll be glad to any time.

NAVY BACKS UP ARMY IN CHILE

Present Solid Front in Drive Against Politicians

Congress Receives Military Cabinet Members

New Ministers Acclaimed by Santiago Crowds

(BY CABLE AND ASSOCIATED PRESS) SANTIAGO (Chile), Sept. 8.—Tense excitement prevailed here today after it became known that a reunion of naval officers at Valparaiso last night adopted resolutions aligning the army and navy in a solid front against politicians. The naval officers adopted the motto "The people demand a clean administration without politics."

The Senate and the House of Representatives this afternoon received the new cabinet headed by Gen. Luis Altamirano which was sworn in last Friday night after three days of excitement on the part of the people because of the political situation. When the members of the new Ministry faced the Senate there were no speeches. Gen. Altamirano merely said that the government desired prompt approval by Congress of pending bills looking to the welfare of the country. The chairmen of the Senate then consulted with the members who their approval to all pending bills. Immediately afterward the cabinet went to the lower house where the same program was carried out.

CABINET DECLARATION
Shortly after the reception of the cabinet by Congress, the military committee issued a declaration as follows:

"First the military movement has not and will in no sense have political character; second, the movement was inspired exclusively as a supreme requirement to save the nation, ruined by political and administrative corruption, and it will not end until its mission has been fully fulfilled; third, it is declared there is no intention to make or establish a military government or to introduce a dictatorship of any kind."

Large crowds of the populace today acclaimed the new ministers as they went to and returned from the Moneda Palace. There was considerable excitement in Santiago, but no untoward demonstrations.

CAUSE OF CRISIS
The political crisis in Chile, according to previous dispatches from Santiago, was initiated early last week by the demand of army officers for the constitution of a nonpolitical ministry and other reforms. The officers maintained that they were expressing opinions throughout the republic and were not heading a military movement for the replacement of the government.

On last Friday night the cabinet resigned and was reconstituted with Gen. Luis Altamirano at its head, later that night. During that day political demonstrations were held in various parts of the city and stock market operations were suspended.

The events leading to the reorganization of the government began when several army officers expressed their disapproval of the present administration and their desire for a nonpolitical ministry and other reforms. The officers maintained that they were expressing opinions throughout the republic and were not heading a military movement for the replacement of the government.

President Alessandri thereupon asked the officers of the army to submit a written statement of the reforms they requested. The President and both Chambers of Parliament, in special sessions, accepted the written petition and the cabinet resigned.

A delayed message from Santiago received today asserted that there had been a rumor on Friday that the military committee had demanded the resignation of the President and the dissolution of Congress.

ASKS STATE GUARD STAY AT HERRIN

Acting Sheriff Protests Removal of Militiamen Proposed for Today

(BY A. P. MONT WHEAT) MARION (Ill.), Sept. 8.—Vigorous protest against the proposed removal tomorrow of the State militia from Herrin was made this afternoon by Acting Sheriff Randall Parks in a telegram sent to Adj. Gen. Black of the Illinois National Guard. His message was the result of a letter from Capt. Harold M. Bigelow, in command of the detachment of troops left here, that the troops would be withdrawn tomorrow.

Acting Sheriff Parks asserted he could not agree with the view taken by Adj. Gen. Black that there was no necessity for troops being kept in Herrin any longer.

"As soon as the troops leave, trouble will start again," said Parks. "Fever is very high, especially in Herrin. In my opinion, while the militia is here, there is no need here for martial law for an indefinite time in Herrin."

Parks has been acting Sheriff of Williamson county since Sheriff George Galligan departed for Pontiac, Ill., several days ago, following instructions by Capt. Bigelow to leave the county until the excitement had cleared away.

VESSEL ON SPIT OFF OREGON WORKS FREE

(BY A. P. MONT WHEAT) MARSHFIELD (Or.), Sept. 8.—The steam schooner Mary E. Moore, which went aground on the north spit inside the mouth of the Umpqua River today, had gotten off the spit late this afternoon, according to a message received from Reedport, Or. She apparently was undamaged, and was headed for Reedport, said the message.

SHERIFF'S CLAIM GOOD

(EXCLUSIVE DISPATCH) WASHINGTON, Sept. 8.—John H. Siebert of Sanger, Cal., was awarded \$118.18 by the Secretary of the Interior today in disposing of a war mineral claim. Three other companies throughout the country also were mentioned.

ENVELOPED BY BOLT, UNHURT

Woman Seen Holes Torn in All Sides of House by Lightning

(EXCLUSIVE DISPATCH) TOMHSTONE (Ariz.), Sept. 8.—A freak lightning bolt, appearing to have shattered into many smaller ones, enveloped an adobe cottage in which Mrs. Barney Andino was sitting, yet with no injury to her.

The lightning tore gaping holes in the house on all four sides.

William Kerlew, who lives in a house thirty feet from that of the Andinos, was knocked down and stunned. He says the adobe appeared to be enveloped by the electrical discharge, which came with a noise like that of a cannon shot.

Though a ceiling was torn away no fire followed.

LEAGUE AID REQUESTED BY GEORGIA

Intervention With Russia to Halt Bloodshed Asked by President

(BY CABLE AND ASSOCIATED PRESS) PARIS, Sept. 8.—President Jordan of the Republic of Georgia, who is in Paris, today sent telegrams to the League of Nations and to Prime Minister MacDonald of Great Britain and Premier Herriot of France asking them to intervene with Moscow to stop bloodshed attendant upon the struggle between revolutionary forces and troops acting on orders from Moscow in Georgia.

The President offered to submit to arbitration the Georgian demand that her independence be respected. He also telegraphed to Moscow demanding that the soviet government observe the treaties between the two countries, by the terms of which soviet Russia recognized Georgia's independence.

The Georgian league here has published two delayed telegrams dated the 3rd and 4th inst., purporting to show that the revolt against the soviet government in support of the independence movement was progressing and that the soviet authorities were acting drastically.

The message dated the 3rd inst. declares that Kutais and the entire Province of Gori were in the hands of the Georgian insurgents, that fighting was going on in the outskirts of Tiflis and that detachments of the Red army were said to have gone over to the Georgians.

The later message accused the Reds of having taken 800 aged persons and children from Gori villages to Batumi, when they were sent on ships to unknown destinations. The soviet authorities were said to have arrested 2000 Georgians at Batumi.

Pacifists Flayed by Spanish War Veterans' Head

(BY A. P. MONT WHEAT) MICHIGAN CITY (Ind.), Sept. 8.—Hearty co-operation in the defense test, the 13th inst., was asked today of the United States-American War Veterans, in annual national encampment by Commander-in-Chief Albert D. Alcorn of Cincinnati, during the reading of his annual report.

He scored "certain pacifist organizations" for trying to make a political act of the defense test. They raved as if our country were walking in armor, rattling the saber and threatening the peace of the world," Commander Alcorn said.

It was recommended that the legislative committee renew its efforts to have enacted a law providing a just and equitable pension for all veterans.

'Ruler' Without Country Cannot Stay in America

(BY A. P. MONT WHEAT) WASHINGTON, Sept. 8.—Sled Zerdicheno, who styled himself Emir and ruler of Kurdistan, today was ordered deported from the United States by Assistant Secretary of Labor White.

The order was issued on the ground that Zerdicheno entered this country in violation of the immigration act of 1924. It held that he was not in possession of an immigration visa and that he made false and misleading statements to immigration inspectors, thereby entering without inspection.

It was set forth that evidence showed there is now no such government as Kurdistan which Zerdicheno claimed to represent.

The warrant for deportation will be issued in a few days, it was indicated.

LA FOLLETTE HOPEFUL

Tells Labor Leaders He Has Even Break to Win

(BY A. P. MONT WHEAT) WASHINGTON, Sept. 8.—Senator La Follette today told a group of labor leaders who are supporting his independent candidacy for President that "as things stand today we have an absolute even break to win."

The labor chiefs, numbering about twenty, met here to lay plans for co-ordinating their campaign endeavors and for raising funds to be expended in the interests of the La Follette-Wheeler ticket. Warren S. Stone, head of the Brotherhood of Locomotive Engineers, presided.

In a brief address Mr. La Follette declared he was daily becoming more optimistic over the result in the November election.

BADGERS RELIVE SCENES OF WAR

La Follette's Officials Ban Defense Day Plans

Nonoffice Holders Prepare Own Observance

Guardsmen Reported Ordered Not to Parade

(EXCLUSIVE DISPATCH) MADISON (Wis.), Sept. 8.—Wisconsin is reliving scenes experienced during the war with the La Follette-controlled State administration opposing any participation in the nationwide activities of Defense Day next Friday and a large element of nonoffice holding citizens planning to observe the day on the theory that Wisconsin is a part of the United States.

National Guard officers say they have been given to understand that their commissions will be revoked if they permit their units to take part in the celebration. The office of the Adjutant-General today it was neither admitted nor denied that such an order had been issued.

Lieut.-Col. N. M. Schantz, in charge of the office, said that Adj. Gen. Ralph M. Imnell, the youthful incumbent, was touring the northern part of the State, and is not expected to return to Madison until after Defense Day. He indicated that orders to the National Guard were private and much less of concern to the outside world, where Senator La Follette is campaigning for President of the United States.

ESPIONAGE CHARGED
Sensational charges by Mrs. La Follette, made through the Senator's monthly magazine, that the War Department is maintaining an expensive espionage system for the purpose of procuring, through individuals and organizations, generally accepted in Wisconsin as causing Gen. J. Blaine to put a quietus on Defense Day.

A formal order followed from the Adjutant-General, announcing that by direction of the Governor the National Guard would not participate.

After referring to Boy Scouts' organizations, reserve officers' training camps and military drill in schools and colleges, Mrs. La Follette said:

"It costs the War Department a tremendous amount of effort to keep all these phases of national militarization functioning under the voluntary system. It is necessary to advertise and sell their preparation; training camps are 'summer vacations' and joining the Army offers 'opportunity for an education.' Individuals and organizations, even the churches, opposed to militarism and favoring peace, are branded as disloyal and are spied upon and persecuted by the War Department like criminals."

SEES NEW FIGHT
"If mobilization day is the success the War Department anticipates the issue of compulsory training will have to be fought out again in the next Congress. Will the American people realize the underlying purpose of this mobilization day, or will they good-naturedly think it is merely a Fourth of July—no harm in it?"

The stand of Gov. Bryan of Nebraska, identified as "candidate for Vice-President on the Democratic ticket" against the day, and of Gov. Sweet of Colorado in refusing to call out the National Guard, is favorably mentioned and all readers of La Follette's Magazine are urged to telegraph their views to their own governors.

"We are not giving out any dope in this office and nothing need be printed in the newspapers about the Wisconsin guard is doing or has been told to do," said Lieut.-Col. Schantz.

The newspapers roared over Governor for his statement saying the State would not take part in Defense Day and we are not going to be responsible for having him roasted again. Gen. Imnell is up north on an inspection trip and is not expected back by Thursday.

Despite the official efforts to make observance of the day a failure, the American Legion, the Reserve Officers' association and other organizations are working to hold exercises in every city and town.

PHONES FOR POLICE

Lack of Public Pay Stations in Paris Makes Device Useful

The French police are now equipped, says a Paris dispatch to the Chicago Tribune, with a new telephone device to facilitate communication with headquarters. It consists of a telephone instrument small enough to be carried in the pocket like a watch or a knife. Telephone "terminals" which are provided at convenient points and weatherproof construction are plugged in; his pocket telephone at one of these terminals, the officer can talk to police headquarters from almost any point along his beat.

Such a device is of much greater value in France than it would be in American cities, where all the corner drug stores and cigar stores, as well as hotels, railroad stations and innumerable other public places, are equipped with telephone booths, which are, of course, readily available, not only to police officers but to the general public. The French device is apparently available only for official use, and the ordinary wayfarer finds telephone booths in France much less common in France than in this country. Within the past year or so, however, the French government, which operates the telephone system of France, has granted to a private company a concession to install and operate coin-box telephone pay stations throughout the republic. (Telephone Press.)

BATTLE IMMINENT

Military Engagement Expected at Sula, Honduras, Soon

(BY A. P. MONT WHEAT) WASHINGTON, Sept. 8.—A military engagement is imminent near Sula, Honduras, according to an official dispatch received here.

Provisional government troops have seized trains from Puerto Cortes, with the explanation that they required them for troop movements.

A revolutionary force of considerable size is reported approaching San Pedro, but the coast situation as a whole was described as "quiet."

CAT PIPED ALL HANDS

Full Crew Required to Rescue Wee Kitten from Maze of Furnace Pipes in Manhattan Home

(EXCLUSIVE DISPATCH) BROOKLYN (N. Y.), Sept. 8.—It took two dog-catchers, three policemen, a detective, two janitors and a reporter four hours to catch a one-month-old kitten, which played a game of hide-and-seek with them through a maze of furnace pipes in the home of Mr. and Mrs. Albert Symington, 114 East Sixty-fourth street, Manhattan. The Symingtons are at their country home in Monmouth, N. J.

The police forced an entrance to the house after listening all night to almost hourly complaints from neighbors that cats in the house were making the night hideous with their yowls.

The police waited until Agents Thomas Midwinter and U. S. West, enroute of the A. P. C. A. arrived with a wagon containing axes, fire ladders and hack saws. Then they raised a 20-foot ladder to a second-story window, which was forced open with a jimmy.

Next they had to force a lock and remove a panel from a heavily barred cellar door. In the darkness they groped their way to the coal bin, where it was believed the cats, for they still supposed there must be more than one, had taken refuge.

There were no cats in the coal bin, but plaintive meows directed the searchers to the furnace. In the darkness the kitten could be heard pacing back and forth in the overhead piping. Agent Midwinter made the mistake of trying to crawl into the furnace, but got stuck in the door and came out all covered with soot.

Finally the rescuing squad attacked the furnace pipes and after an hour or so managed to dislodge them and found the cat a tiny gray kitten, very hungry and very frightened.

OUTLOOK IN RAW WOOL HELD GOOD

Mondell Puts Credits for Growers Prosperity on Aid of Cooperative Groups

(EXCLUSIVE DISPATCH) WASHINGTON, Sept. 8.—The fact that wool dealers all over the country are having difficulty in replenishing their stocks, even at higher prices for such grades as three-eighths and half-bloods, is an excellent indication of the improved position and prospects of the American wool growers, according to Frank W. Mondell of the War Finance Corporation.

Mr. Mondell, who has been making a study of the wool industry, made the above statement in connection with the difficulty that dealers have in securing such brands grown in Ohio, West Virginia, and on the ranges. Explaining the situation Mr. Mondell said:

"The domestic wool clip is better financed this year than ever before. The War Finance Corporation last year financed the cooperative wool growing organization and this help was extended this year through the intermediate credits banks. To a large extent this strengthened the domestic market. These government agencies enabled the domestic clip to be placed on the market in orderly fashion and prevented dumping regardless of price."

"The inevitable strengthening of the market which we now see is due to the fact that we have gotten rid of the surplus laid up by the war and that our economic policies have enabled our growers to place their product on a healthy and constantly absorbing market."

BATTLE IMMINENT

WOMAN AND REACTIONARIES
Representative May Nolan of California, said in Washington the other day:

"'Women for Congress' is the slogan of the Women's party. And no wonder. There are 20,000,000 voters and only one Congresswoman."

"The reactionaries who keep repeating that women are unfit for politics are as inconsistent as old Cornelia Husk, the farmer. The day Corn's daughter got married the old man said to the bridegroom:

"Take her, Jethro, but take good care of her, for the little ladybird has been his tender-like, since she was a day old."

Eight acres a day is all I ever ask her to plow, and four acres of corn is as much as she can handle. She is a tight work, such as well diggin', but she ain't up to no rough stuff, and you must be gentle with her. I tell you, son, it's hard for the old man to give his little sunshine up. He'll have to split his own wood and tend his own corn now."

Despite the immense amount of telephone wire now laid in underground cables, there are over 18,000,000 telephone poles in the United States or an average of approximately one pole for every telephone.

FROM PERSONAL EXPERIENCE

Mrs. Bradford Recommends Lydia E. Pinkham's Vegetable Compound

Phoenia, Virginia.—"Having this opportunity I just must commend the saying of a word of praise for the Lydia E. Pinkham's Vegetable Compound. I have used them as a remedy for twenty years, and my three sisters have also used them, and always with the most gratifying results. During the change of life I had the most distressing symptoms—hot flashes, insomnia, etc.—and I am pleased to testify to the wonderful results I obtained from the Vegetable Compound. I heartily recommend it to any woman and I will be pleased to answer any inquiries that might be sent to me through the publication of my testimonial. Mrs. H. L. BRADFORD, 100 Armstrong St., Phoenia, Va. Consider carefully Mrs. Bradford's letter. Her experience ought to help you. For that skin eruption

You can have relief within an hour

PERHAPS you have given up hope of getting relief from that annoying itching and burning, but Resinol does bring comfort when many other remedies have failed. One who has used this healing ointment writes: "Resinol Ointment is so soothing it stopped my itching at once and I got the first night's sleep I had had in weeks. Now my skin is well. What it has done for me it can do for others."

Resinol Soap contains the same soothing ingredients which enable it to thoroughly cleanse the skin yet leave it free from sensitive skin and smarting.

WEEKS URGES PHYSICAL TEST

War Secretary Thinks Day of Defense Two-Fold

Declares Nation Should Join to Promote Health

Cites Record of Department in Ending Defects

BY JOHN W. WEEKS

WASHINGTON, Sept. 8.—The "defense test" on the 12th inst. presents an appropriate occasion for every citizen to make an inventory of his physical condition as a personal contribution to the defensive strength of the nation.

I ask especially that fathers and mothers on that day have the physical condition of their children investigated.

I am hopeful that medical men in each community as a patriotic service will issue friendly advice to their fellow citizens and set the day apart for examination purposes.

The War Department makes a complete physical examination of its officers every year. Any defects discovered are corrected. We have induced some officers to take off as many as 50 pounds and those underweight to bring them selves up to normal. We have discovered that many of our soldiers have normal defects in most cases can be cured.

EXTENDS SERVICE

Through these annual tests and corrective treatment, the national vitality of our citizenship has been improved. The service of our officers many years, but has secured many more days of service each year than otherwise would be received. We believe it is possible for our citizens as a whole to increase their vitality by similar methods.

No day would be more appropriate for an examination of the vitality of our citizenship than the 12th inst. It is fundamental to defense and fundamental to citizenship. It is a political matter for a republic that whatever strengthens its defensive ability strengthens its citizenship.

With regard to physique, draft statistics, life insurance, experience, and industrial studies indicate that about half of our population is subnormal. The draft statistics showed that 46.8 per cent of the 2,755,948 whose medical records were complete were defective. Of all examined 23.1 per cent—more than one quarter—were rejected as physically unfit for unlimited service and 17.7 per cent—more than one quarter—were rejected as physically unfit for limited service only.

It is conservatively estimated that preventable illness and curable physical defects cause an annual industrial loss of at least \$1,500,000,000 per year. An appraisal cannot be made of the distress and suffering involved.

POINT TO WEAKNESS

The physical examinations conducted for the citizens' military training camps point to the same national weakness. But they also emphatically prove that practically all of these defects can be cured if discovered in time and the proper exercise is applied before they become permanent.

We have experimented with companies composed entirely of subnormal youths and have seen these companies make an average gain of thirteen pounds in a month's time. The War Department has adopted the practice of writing to all parents whose sons have physical defects, suggesting the proper treatment or advising them to see their family doctor. Judging from the letters received, these defects are being corrected. Each community could do what the War Department is doing. Their combined efforts would reach a total citizenship, while the Army's field is limited. The physical standard of all our citizens could be brought close to normal. The subject received the attention demanded.

It may be too late for any such constructive action on a nationwide scale to eradicate the physical weakness of the present generation, but it certainly is not too late to prevent the oncoming generation from developing similar defects.

MEXICAN MINE CLAIMS FILED BY AMERICANS

MANY TITLES ENTERED IN DURANGO, CHIHUAHUA, IN RECENT WEEKS

CHIHUAHUA, Sept. 8.—All of the government mining agencies in the States of Durango and Chihuahua have been unusually busy during the last few weeks, according to titles to mining claims in the various districts. Many of the new filings were made by Americans, which is taken to be evidence of the fact that prospectors of that nationality are returning to Mexico in considerable numbers. In many cases claims, titles to which are declared forfeited by the government for nonpayment of taxes or for other reasons, have been relied upon and preparations are being made for reopening them.

During the revolutions a large number of valuable and productive mines were abandoned by their owners on account of existing dangers, and there has been much activity on the part of Americans in acquiring title to these properties. It is stated that suits for the recovery of their abandoned properties have been filed in the State courts by former owners in a number of instances.

One of the most favorable indications of the general revival of mining activities in the States of Durango and Chihuahua is the increased demand for electric power for operating mining and ore reduction machinery. This power is now being widely distributed by the transmission system of the Mexican Northern Power Company.

A Canadian corporation, which owns a large hydroelectric plant at Boquilla, near Santa Rosalia, State of Chihuahua.

There were 49,000 motor vehicle repair shops in the United States in 1923.

The Grath to Come

By E. Phillips Oppenheim

"There's probably some one else lurking about to see this fellow isn't interfered with."

"Not if I can help it," she insisted. "I'm coming up with you. You haven't another pistol, have you?"

"No, but you can have this one," he answered, pushing it into her hand. "They won't suspect you having one and I'm pretty useful with my fists. Got it? Good! Now, go around the other side and tell Gertrude to look after her husband. See what's doing, and then come forward. I can't think what's become of Mr. Martin and the chief engineer."

She nodded and glided away through the darkness. Her slippered feet were noiseless upon the deck, and in her black gown she was almost invisible. Grant mounted the steps rapidly. There was no sign of any unauthorized person upon the bridge. The words of stern inquiry were already framed upon his lips. Then, just as he stood on the last step, something swung out from behind the canvas protection. He felt a crashing blow on the side of his head, a sudden sensation of fury. He glanced anxiously toward the officer in charge.

"What's going on here, sir?" he asked. "Only one of the commander's guests run amok," was the answer. "Had too much to drink and wanted to come and sail the ship. Get back to your room, Burgess. The man looked unusually nervous. He was not at all satisfied. He seemed to me to have treated him a bit roughly, sir," he said.

"Not your job."

"Hadn't I better go down and have a look at him?" he persisted. "Stay where you are, damn you!" was the angry reply. "We're twenty-four knots with a cloud of rain ahead, and thirty fishing-boats somewhere about. Attend to your job."

There was a certain irony about Susan's reappearance. Grant's string quartet band, of which he was so proud, had just played a soft music. Funderstrom had rejoined the little group and was sitting upon the outskirt, cold and silent as ever. Gertrude and Rose were listening to the music, but the latter was clearly uneasy.

"Susan, where is everybody?" she exclaimed. "I never knew anything so mysterious. Mr. Slattery hasn't been back all the time. Prince von Dism has disappeared, and now even Mr. Blunn is missing."

"I suppose it's the trouble about the engine," Susan observed. "I don't think there's anything to be alarmed at, though. The sea's quite calm even if we do break down."

Mr. Cornelius Blunn suddenly came into evidence. He stepped through the companionway with the obvious air of having something to say.

"There is no cause for alarm," he assured them. "The whole affair is a mere trick. Mr. Slattery has met with a slight accident. He seems to have slipped coming down the steps from the bridge. We've taken him into the saloon. If one of you ladies, who is accustomed to bandaging—"

Gertrude and Rose both rushed to their feet. Susan, however, was halfway down the stairs before the others had started. Grant was lying on a sofa, a small steward was bathing his forehead. He looked up as Susan entered. She hurried over to his side and waved the steward away.

"Are you hurt, Grant?" she whispered, eagerly. "Not if I can help it. I'm making the worst of it, but I shall be all right in half an hour. It's a mere flesh wound. The wound is on my forehead. The wound is on my forehead. The wound is on my forehead."

"Tell me, who's my man? Where shall I go, engine room or bridge?" (Continued Tomorrow)

MYSTERY SURROUNDS \$25,000 JEWEL THEFT

TEXAS WOMAN'S NECKLACE IS RETURNED; POLICE HUNT RICH CHICAGOAN

(REUTERS DISPATCH)

CHICAGO, Sept. 8.—Detectives of New York and Chicago are busily endeavoring to untangle the mystery surrounding the asserted strange disappearance and recovery of a \$25,000 pearl necklace owned by Mrs. Clarence Lina, wife of a wealthy jeweler of Dallas, Tex.

At last authentic account, a wealthy and prominent Chicagoan, whose name has not as yet come to light, delivered the gem to the owner, Mrs. Lina, who, it would appear, had been a passenger on same train from Chicago.

Mrs. Lina, who, as the story goes, having missed a string of pearls upon retiring on Thursday night in her apartment at the Congress Hotel, had excitedly notified a detective agency and the underworlding company issuing a policy on the gem.

The detectives quickly learned that Mrs. Lina had spent the evening in the company of the Chicagoan at the Edgewater Beach Hotel, and decided to look him up. A clue led the detectives to a fast Chicago-New York flyer which the Chicagoan had boarded shortly after leaving the city. The jewelry's wife, New York authorities were wired to apprehend him.

But That's Not Indianapolis

Two youthful sports were walking down Ohio street the other day, bemoaning the fact that they could not remain in the way of the quaker except white mice, when they were met by a mutual friend. "Say," the friend whispered, "I know where you can get some good Scotch."

"Where?" eagerly asked the pair in one voice, their eyes lighting up. "In Scotland," the friend replied, as he hurried down the street. (Indianapolis News.)

COLOMBIA'S AIR MAIL COMPLETE

South American Nation Hooks Up Chief Centers

Two New Routes Established to Perfect Network

Vast Saving in Time Result of Use of Planes

(REUTERS DISPATCH)

NEW YORK, Sept. 8.—With the establishment of two new lines this summer the Republic of Colombia becomes the first nation in the world to connect all of its principal commercial centers by air mail. Air lines now measure 1104 miles, but figures of distance mean comparatively little until savings in time are considered.

Its seaplanes, following the tortuous course of the Magdalena River, and three land planes, vaulting the mountain ranges, reduce communication to hours as contrasted with days and even weeks, by shallow-draft steamer, railway or pack team.

R. S. Salas, Jr., an official of the American Trading Company, 25 Broad street, New York City, United States agents for the Societa Colombiana de Transportes Aereos, reports that the establishment of the night-flying air mail in Colombia is a regular service, with planes regularly flying eight days, and in dry seasons exceptionally as much as fifteen days.

The company is known among exporters and importers the world over as Scotia. Since its establishment in 1921, Scotia has covered 161,530 miles in 4521 miles of flight. It has carried 1330 passengers and 14,522 kilograms of mail, which makes, including shipments of mail, a total of 219,567 kilograms of payload. Savings in time in interior transportation are almost unbelievable in one instance trails that are traversed only in four days by mule pack are covered in seventy minutes by plane. Seaplanes fly up the Magdalena River in eight and one-half hours, as contrasted with eight to fifteen days by steamer.

Special services have also been performed by Scotia. The region of the Cauca River, which had long been in dispute between Colombia and Venezuela, was surveyed from the air. This region is covered with swamps and tropical forests. Three thousand nine hundred square miles had to be mapped. It was estimated that this would require two years' time and the expenditure of \$200,000 if done by surface methods. In six days Scotia covered the entire area, taking 1800 photographs from the seaplane Caldas. The total cost was one-tenth of the estimated cost by land.

Colombia is one of the richest countries in the world, but due to the character of the terrain, the Magdalena River has been the principal artery of communication. The capital, Bogota, and many of the other important business centers, are located high in the mountains, 750 to 1000 miles in the interior. To get the natural riches out of the country, as well as to bring in the goods of other countries, which these riches purchased, requires that advantage be taken of the fastest and most modern means of communication.

Right after the war Colombian and German capital combined to make an aerial survey and in 1920 the first seaplane safely reached Girardot, on the upper reaches of the Magdalena, 425 miles from Barranquilla. The company was soon confronted with engineering and meteorological problems which resulted in the establishment at Barranquilla of laboratories and works at which materials, engines and completed craft could be tested.

While constructed at first for passenger carrying, the seaplanes were adapted to cargo work. Arrangements were made with the Colombian government whereby the seaplanes could be carried and regular Colombian postage insured in the special air-mail stamps which Scotia issued. Regular weekly round trips between Barranquilla and Girardot were established in August, 1921, and since then the service has continued without interruption and without loss of mail.

The following lines are now in operation: Barranquilla-Girardot, 425 miles, eight and one-half hours by seaplane, eight to fifteen days by steamer; Girardot-Neiva, ninety-four miles, seventy minutes by airplane, four days by muleback; Barranquilla-Cartagena, seventy-five miles, sixty minutes by seaplane; Medellin-Cali, 105 miles, three hours by airplane; Puerto Wilches-Bucaramanga, seventy-five miles, sixty minutes by airplane, four days by muleback.

Two air mails fly weekly each way between Barranquilla and Girardot, making connections with North American and European steamers. At Girardot the mail lies over for the night and next day proceeds 100 miles by train to Bogota. It takes the train eight and one-half hours to travel this 100 miles—just the same time required by the seaplane to fly 625 miles from Barranquilla. En route to Girardot, mail is delivered at Macangue, El Banco, Barranca Bermeja, Puerto Berrio and Honda. The mail is taken by special messenger from Puerto Berrio to Medellin (there to connect up with the land-plane line); from Honda to Manizales and from Girardot to Bogota. The train and bus lines connect Tuesday and Friday the air mails leave Girardot for Barranquilla. Following the arrival of the train from Bogota, Every Thursday an air-mail round trip is made from Girardot to Neiva. The flight Barranquilla-Cartagena is made twice a week, connecting with the Barranquilla-Girardot line.

The air-mail postage, with the flight to Girardot as a standard, is 30 cents, United States currency, for each one-half ounce. This includes Colombian national postage. Persons outside Colombia can send any mailable articles addressed to the interior of Colombia by placing on their letters the air-mail stamp alone. These letters should be placed inside another envelope, which should then be addressed: "A. La Oficina del Correo Aereo, Barranquilla, Apartado No. 203 (Colombia, S. A.). To this second envelope should be affixed sufficient postage to carry it to Barranquilla."

The New Marron Pearl

The very newest imitation pearls, a hint of fiery copper, brown, the Marron pearl. A graduated strand of these alternated with genuine siligree beads of a deep lustrous blue—well, you can imagine the effectiveness against a frosty Fall.

The earrings to match are \$2.95. All are in perfect condition. Another strand with long, slender metal beads at intervals, priced \$12.00.

A tasseled strand of chestnut and a d. maroon has carved Chinese Mandarin motif. Rich coloring, uniquely designed, \$9.95.

A satin sapphire "in" shoker is one of the most beautiful individual strands which in this importation. Priced \$12.00.

A pearls pendant also arrives on the same boat. Exclusive of their daintiness. They are priced just \$5.00 for a neck-size strand.

Full Speed Ahead

by C. Harold Wills

“So it appears then that business, while falling into the abyss, caught on a twig, and while waiting to be rescued from imminent disaster—DISCOVERED A GOLD MINE.”

With the barriers now removed between us and PROSPERITY, all the essentials of good business are now present. The whole country is unmistakably about to enjoy a general BUSINESS ADVANCE. Pre-war America is HERSELF AGAIN.

Six months ago we were told that business was going to be bad. It has since developed that the warning came mostly from timid economists. But at the time the storm signals seemed authentic and everybody took the forecast more or less seriously.

As a result, a few sought cover, and there was considerable scurrying about.

But the significant thing about the whole incident is the now patent fact that BIG BUSINESS in the main held to its charted course and—NOTHING MUCH HAPPENED.

Those who expected business to die, if they are honest, will now admit that they pulled on their white gloves and their long faces a trifle TOO SOON.

Far from dying, business is today showing remarkable vitality.

Most elated of all is THE FARMER, who now suddenly realizes, that, instead of being hopelessly involved, he is WORTH ABOUT A BILLION DOLLARS MORE THAN HE WAS NINETY DAYS AGO.

Concurrently, scrambled EUROPE has been unscrambled and the prospect for export business is now more encouraging.

Truly a most delightful sequence of happy events.

To which we may add still another most propitious event, namely: the nomination of SOUND CANDIDATES by the leading parties, INSURING four years of sensible, constructive government.

So it appears then that business, while falling into the abyss, caught on a twig, and while waiting to be rescued from imminent disaster—DISCOVERED A GOLD MINE.

In the fall of 1924, during all of 1925, and for a long time thereafter, those of us who are willing to dig can enjoy real prosperity.

Everyone with a good product will, from now on, find a ready market. There is going to be no difficulty in selling any needed article that performs its intended function DEPENDABLY, providing the price is a FAIR ONE.

As applied to motor cars, I have merely this to say: there are in America today the finest array of good motor car values that the world has ever seen. Never have the people been given SO MUCH for SO LITTLE.

This is true in the small car field.

It is true in the medium priced field.

And it is especially true in the fine car field.

There are today FIVE AMERICAN FINE CARS, which from a standpoint of service, dependability, luxury and beauty, have never been approached.

THE WILLS SAINTE CLAIRE IS ONE OF THEM.

The beautiful

Refugees Throng Shanghai As Civil War Rages In China

Refugees. Nanking Road, the main street of Shanghai, China, which is now crowded with refugees fleeing from the battle zone along the Nanking Railway, where Chekiang troops under Gen. Lu Yuan Hsiang are reported advancing. (P. & A. photo.)

Gen. Chang Tao Lin. War lord of Manchuria, who has declared war against the Peking government and Gen. Wu Pei-Fu, according to dispatches. (P. & A. photo.)

Protecting American Interests. U. S. cruiser Sacramento, which has reached the scene of China's civil war with other American warships under orders of the Navy Department at Washington. (P. & A. photo.)

Swear Their Shingles. H. C. Lillie, clerk of the Second District Court of Appeal, administers the oath to eighty-five law students admitted to practice. (Times photo.)

Gen. Wu Pei-Fu. Military dictator of the province of Chi-Li and the power behind the Peking government. (P. & A. photo.)

Gen. Chi Shieh-Yuan. Commanding the Kiangsu troops in the heavy fighting for the control of Shanghai, China. (P. & A. photo.)

Gets Bench Warrant for Hubby. Flossie Comby, suing for divorce, yesterday had Joe Comby cited for contempt for asserted failure to pay attorney's fees. (Times photo.)

Gets New Plane. Lieut. Leigh Wade taking over the Boston II from Lieut. MacDonald to continue with his comrades in the world flight after his first plane crashed in the North Atlantic. (P. & A. photo.)

Wrecked car in which Joe Boyer lost his life while driving at terrific speed in the annual fall auto race classic at Altoona, Pa. (P. & A. photo.)

Overcomes Handicap. Arthur J. Petrie, law student, is blind but is earning his way through the University of Wisconsin. (P. & A. photo.)

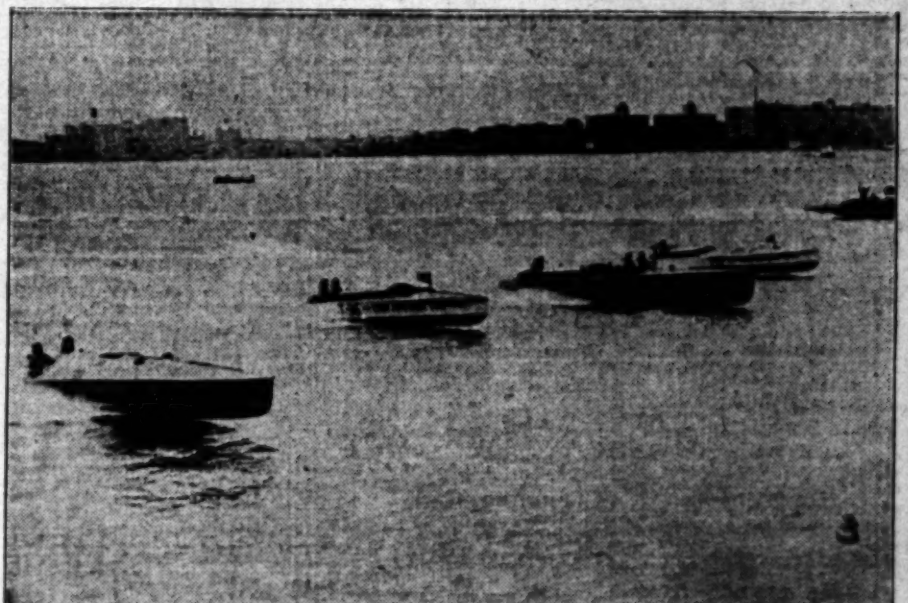

Adjusting Controversies. Members of the United States-Mexico General Claims Commission, who were guests of President Coolidge a few days ago. First row: Dr. Benitez Flores, G. F. McGregor, C. Van Vollenhoven, presiding officer; J. R. Baker and H. W. Anderson. Back row: Thomas A. Simpson, J. Rosner, C. L. Bowne, J. K. Metzger and W. E. Linden. (P. & A. photo.)

Motor School Stops. Motorcycle Police Officer resolves the thanks of Marguerite de la Roche when he reminds her that school stops must be observed. (Don Gillum photo.)

Guard Against Demonstration. Illinois National Guardsmen on duty at Herrin, Ill., while the coroner's jury deliberated on the evidence dealing with six deaths in the recent battle between Klansmen and their foes. (P. & A. photo.)

Gar Wood Wins Classic. Photo shows the start of the 150-mile National Motorboat Sweepstakes at Detroit, which was won by Miss Detroit VII, fourth boat from the left. (P. & A. photo.)

PREMIER GAS WATER HEATER
*Makes the Hot Water Supply in your Home
as Convenient as City water or gas Service*

Hot water, one of the first essentials to clean, comfortable living, has been made practical and economical for every American home. Now you can get a Premier water heater that runs itself, stores hot water enough for all your family's needs and keeps it piping hot any hour, at a reasonable cost.

and ready for use at
The Premier insulated
heater is a beautifully
monize with the appo
Its outer steel covering
and base are polished
It takes but very little

It assures an unfailing supply of piping hot water at all your fixtures, always at full city pressure—even when several faucets are opened at one time.

It requires no special care or attention to keep it in order. You can light it and then forget it. But your Premier is always on the job. It is the heater for *your* home.

The Premier has no complicated mechanism to get out of order, no coils to lime up. Its scientific construction achieves new gas economy. Its galvanized tank of copper-bearing steel is heavily blanketed with a heat-retaining Asbestocel jacket to keep the stored water hot and cut your monthly gas bills down.

Ask your plumbing contractor to show you the Premier. Come to our Exhibit Rooms at any time when it is convenient and see how this remarkable automatic insulated water heater saves money for you while it serves and satisfies.

First (Closed) Mortgage and Collateral Trust
Six Per Cent Gold Bonds

Direct attention to the following important features of this \$2,000,000 issue.

In addition to the first mortgage lien on real estate and buildings, now owned or hereafter acquired, the bonds are guaranteed as to both principal and interest, jointly and severally by the company's five subsidiaries—all strong successful concerns.

The consolidated balance sheet as of May 31, 1934, after giving effect to this financing, shows current assets of \$2,841,892.24 compared with current liabilities of \$1,648,579.20. Moreover, the Deed of Trust provides that net current assets shall be at no time less than 150% of the outstanding bonds.

Net earnings the past five years have averaged \$594,333.41, or nearly five times the interest requirements on this issue.

The business is 75 years old and is now in the strongest position in its entire history.

REALIZING SALES WEAKEN COPPER

Anxiety of Speculators is Bearish Influence

Real Results of Daves Plan Not Evident Yet

Producers Grow Confident of 15-Cent Metal

BY CHARLES F. WILLIS

Copper has been through rather a listless period during the past couple of weeks, with sales low, price not too strong and a tendency to weaken to a lower figure. While the tendency has been to decline, the price has not gone off materially, changing from 13 1/2 on spot and 14 1/2 on futures to 13 1/4 cents on spot.

The past two weeks have been a period of profit taking on the part of the speculators and it would not be at all surprising to see the price drop possibly 1/2-cent before this profit-taking period has passed. There is no reason to expect any great activity in the copper market for several months as a result of the Daves-Young reparations plan as there is much to be done before Europe can demand copper and pay for it, even though they need it badly.

The prospects, however, for an increased domestic demand are declared to be good, as it is understood that the fabricators of copper products are looking a good fall business. While there are second-hand copper offerings, it is not believed that these offerings are sufficient to furnish active competition with new stock or even enough to postpone the buying of the copper necessary to cover requirements.

TRENDS ON EUROPE

There is little or no pessimism on the copper outlook for the immediate future and it is expected that the early fall will see domestic buyers after copper in sufficient large quantities to raise the price somewhat and strengthen the market. This rise coming from a possible increase in domestic demand cannot be very large and but few are optimistic enough to predict real good copper conditions until Europe enters the buying field with money enough to fill the needs for the metal.

The Daves-Young reparations plan for Germany and France has not met with the cordial reception that is desirable and the debate indicated that it was not uniformly acceptable. This attitude undoubtedly did much toward stopping the speculative purchasing and caused many of the speculators to take their profits.

The best we can expect in copper is a dull period for several weeks and possibly a month, accompanied by a weakening of the price, then a stimulation caused by the fall purchasers of copper for domestic use, this to be accompanied by a strengthening of the price and a probable rise. Not many results can be expected from a settlement of European conditions for many months unless some unforeseen circumstances hasten events as to the acceptance and the financing under the proposed plan.

Copper stocks are reacting to the future prosperity of the metal and are in a leading position. It is reported that banking interests are buying heavily in the coppers and that they are said to be confident that there will be a 15-cent copper market by the end of the year, due more largely to the increased domestic demand and foreign prospects.

FLAKE MARKET

FLAKE MARKET (EXCLUSIVE DISPATCH)
DULUTH (Minn.) Sept. 8.—Market for flake was still unsettled today and moderate change was recorded on all deliveries except those which were made on the basis of the current market. Famous Naval Reserve Band at KHJ

WALTER FORBES CRANE
From the sheets have their place
in the scheme of things. Yester-
day the sheet of jazz, more
popularly known as Arthur Ray-
mond Hill, reigned supreme at
KHJ with his fair partner, Irene
Martin. It is hopeless to explain
yesterday. He gave the front
of the microphone. Drooping his
head in a manner, Arthur
sang such songs as "Face to
Face" and "I Love You Truly."
He sang with a new angle of his nature,
before he was through
had to stop. "Backward" was
and the roof audience de-
clined to listen to food.

If we could broadcast Miss Mar-
tine, Arthur Raymond Hill
and all of luck as to popu-
larity. Mrs. Martin is unusually
because apart from her
position the piano plays the piano
that makes the audi-
ence cry for more.

I want to ask the radio family
to stay in the studio get to-
gether and really become friends.
The last edition of the Sunday
Times, the 14th inst., there will
be a new column which will
be the permanent feature of the radio
family. Two of these will require
comment from all my family to
be a success in the way of
information. If we
all have how much you all
know and especially our KHJ
family, please great humanitarian
has been built up by that
commentator, Uncle John, we
can dare attempt these new
columns, but as it is we feel sure
the column is assured.

Orchestra from the Bill-
more Hotel. Edward Fitzpatrick,
soloist.

LOCAL SCHEDULE

12:30 to 1:15 p.m. entire ship-building of the world.

LOCAL MEN START NEW PUBLICATION

First Letter of Service for Business Men is Mailed to Subscribers

Business and financial men were greeted last week by the initial appearance of the Eberle & Rigglesman Economic Service, an advisory publication designed to supply to subscribers unbiased statistical data and analyses of problems and subjects peculiar to Los Angeles and the Pacific Southwest. The service was organized at the suggestion of a number of leading business men, and attempts to supplement the national economic bulletins with accurate comment on local conditions.

The first letter received by subscribers contained this forecast of Los Angeles business:

"The general business outlook for Los Angeles and the Southwest for the next few months is favorable. While the speculation curve shows a slight decline for August the major movement downward seems to have been checked. Money for commercial purposes remains easy. Permanent population growth continues at somewhat above the normal rate. These situations lead to the belief that the downward swing of the general business curve has been checked and that the general conditions are favorable for improvement greater than the usual seasonal improvement during the remainder of the year.

In preparing the analyses and in the compilation of statistical data, the editors of the new service state that only methods of presentation now in use, rather than untried innovations, will apply in their service. The best points of meth-
ods have been selected from the Harvard, Brookline, Babson and other services, and applied to local problems. As far as possible, the information will be presented in a nontechnical manner.

The first letter contains charts on national business, as forecast by speculation, business and money curves, and on the general business of Los Angeles. Considerable space is devoted to the consideration of the trend of population, and in this connection, the summary says:

"Much of the business growth of Los Angeles is due to the increase in its population. According to our estimates, the permanent population of the city is still increasing at more than a normal rate. Our estimates show an increase in the permanent population of 43,892 by immigration and natural increase, and 11,734 by annexation during the first six months of 1924."

KENNEDY

The Royalty of Radio

musical instrument not a mechanical novelty

The greatest appeal of the Kennedy is to those who love good music. For purity of tone, it is peerless. Correctly tuned, it is sweet and natural, free from rasp, hiss and squeals. And it is so simple to tune correctly. When the dial setting for a certain station is once determined, that station always comes in on its own tuning.

MODEL VI

Shown above, has four tubes for tuning in out-of-town stations with loud speaker volume.

Model V has three tubes. The wonderful new, five-tube Model XV is ultra-selective, and is especially designed for localities where local interference is extremely serious. It will operate on an indoor aerial or long.

Every authorized Kennedy dealer is reliable.

The Colin B. Kennedy Company
Saint Louis

HONOR FOR ATHLETES

Dr. Von KleinSmid Will Welcome Olympian Stars Today

Dr. Rufus B. von KleinSmid, president of the University of Southern California, will be the principal speaker at the Billmore Hotel at noon today before the Advertising Club of Los Angeles. Dr. KleinSmid's address will be in the nature of a welcome to the Los Angeles athletes who participated in the Olympic Games and who will be honored guests at the luncheon. Motion pictures of the athletes in action will feature the program.

FUNERAL WEDNESDAY FOR BAPTIST PASTOR

Funeral services will be conducted Wednesday at the First Baptist Church at Ontario for Rev. George M. Lehigh, for twelve years a Baptist preacher, who died the 1st inst., at Everett, Wash. At the time of his death Mr. Lehigh was pastor of the First Baptist Church of Everett. He came to Los Angeles in 1910 as supply pastor of the First Baptist Church, afterward being pastor of Baptist churches in Long Beach, Highland Park, South Park and Fullerton. The services will be in charge of Rev. W. Earle Smith and Rev. W. F. Harper.

CHIROPRACTIC CLASSES

Dr. Willard Carver, dean of chiropractic colleges in New York City, Oklahoma City and Denver, arrived here Sunday to give an instruction course to chiropractors. He will give a lecture to the profession at 8 p.m. today at 246 South Hill street. The course will be of eight lectures and will be given at the Walker Auditorium, 730 South Grand avenue.

PRACTICAL RECIPES

Helps for Epicures and All Who Appreciate Good Cooking

(Note—This department is continued for the benefit of readers of The Times in the hope that the information herein will help in the selection of the best and most economical foodstuffs available. In other words, the purpose is to give the reader a better understanding of the value of the foodstuffs he purchases. The Times department is published for the benefit of the reader and is not intended to be a source of profit for the publisher.)

Requests for recipes and information pertaining to the proper preparation and serving of foods will be answered in this column every Tuesday.

Address all requests to Chef A. L. Wyman, 4111 Wilso's Market, Glendale, Cal.

BY CHEF A. L. WYMAN, M.C.A. CORNED TONGUE

B. R. Monrovia, wants a nice way to serve a corned beef tongue.

Cover the tongue with cold water and let stand over night; drain, dry, place in a kettle, cover with cold water, bring to a boil, reduce the heat and simmer slowly until tender. Plunge into cold water, remove the skin and roots and return to the pot to keep hot. Boil one cupful of washed rice in three cupfuls of boiling water until soft, drain and keep hot. Cover one cupful of seedless raisins with two cupfuls of water, simmer until soft, not broken, drain and keep hot. Heat one cupful of beef stock, add half a cupful of strained orange juice, heat until warm, mix with the cooked rice and raisins. Spread this mixture over the corned tongue, arrange on the covered platter in its original shape, garnish with orange slices and serve hot.

CLUB SAUSAGE

P. K. S. Bakerfield, asks that we repeat the recipe given for club sausage given by us some months ago.

Run through the fine knife of the meat chopper one pound of lean fresh pork and one-third of a pound of fat, fresh pork. Mix with half a teaspoonful of celery seed, half a teaspoonful of salt, and a seasoning of fresh ground black pepper. Wrap even-sized pieces in caul fat and fry.

BUTTERSCOTCH PIE

A. A. Huntington Beach, wants our recipe for butterscotch pie.

Place in the top part of a double boiler three tablespoonfuls of butter and one and a half cupfuls of brown sugar; stir over the fire and when like wax, place over the hot water, stir in one cupful of milk and stir and cook until the sugar is dissolved. Beat the yolks of two eggs, add four tablespoonfuls of water, beat smooth with four tablespoonfuls of flour and a quarter of a teaspoonful of salt; add three-quarters of a cupful of water and stir into the sugar mixture, stir and cook until thick and smooth. Cool slightly, pour into a baked pie shell, cover with a meringue and brown in the oven.

OVEN TEMPERATURE

C. M. F. Los Angeles, asks that we tell her the degrees of heat for a slow, moderate and hot oven.

A slow oven should be from 250 degrees to 350 degrees F. A moderate oven should be from 350 degrees F. and a hot oven from 400 to 500 degrees F.

MEXICAN POTATO SALAD

G. K. Los Angeles, wants directions for preparing a Mexican potato salad.

Mix in a small saucepan one tablespoonful of melted butter and one tablespoonful of flour; add one teaspoonful of salt and three level teaspoonfuls of chili powder, stir into these slowly one cupful of hot vinegar and stir and cook until smooth. Peel boiled potatoes, cut dice, add a seasoning of chopped onions and serve with the dressing.

CARROT SOUP

P. M. Los Angeles, wants directions for making carrot soup with rice using beef stock.

Peel and slice six carrots, place in a saucepan, add six cupfuls of stock, bring to a boil, reduce the heat and simmer until the carrots are soft; press all through a sieve into a clean saucepan, add half a cupful of cooked rice, season with salt and pepper, boil up and serve.

COLD BEET SOUP

A. S. Los Angeles, was served with a cold beet soup at a tearoom in Hollywood and asks that we tell her how to make it.

Grate eight peeled raw beets, place in a saucepan, add one cupful of cider, bring to a boil and boil five minutes; strain through a napkin and set on the ice to chill. Press the yolks of four hard-boiled eggs through a sieve into a cold bowl, mix with two cupfuls of chilled sour cream and the beet juice, mix well, season with salt and pepper, pour into cups, set in a bed of shaved ice and sprinkle the tops with a mixture of three hard-boiled eggs, one peeled and finely chopped cucumber, and six finely chopped radishes.

RAISIN GINGER COOKIES

B. D. G. Los Angeles, wants us to give a recipe for raisin ginger cookies.

Beat four tablespoonfuls of butter to a cream, add half a cupful of brown sugar and beat smooth; add one well beaten egg, half a cupful of seedless raisins, and one and one-half cupfuls of sifted flour sifted with one teaspoonful of baking powder, half a teaspoonful of cinnamon, one teaspoonful of ginger, one-quarter of a teaspoonful of baking soda, and one-quarter of a cupful of molasses; add one-third of a cup of molasses and beat smooth, with half a cupful of sour milk. Drop from a spoon onto a buttered baking tin of bake in a moderate oven.

NUT CAKE

R. G. L. Los Angeles, wants to make a nut sheet cake to cut in squares and use for a party and wants us to furnish the recipe.

Beat one cupful of butter to a cream and beat into it slowly two cupfuls of sugar and beat smooth; add three cupfuls of sifted flour sifted with two teaspoonfuls of baking powder; add one cupful of milk and beat smooth; add one cupful of broken nut meats and mix well. Beat the whites of five eggs to a stiff froth and add to the batter; flavor with one teaspoonful of lemon extract and two teaspoonfuls of vanilla. Pour into buttered and floured biscuit tins and bake in a moderate oven. Cool cover with white icing and while the icing is soft sprinkle with finely chopped nut meats. When ready to serve cut in diamonds or squares.

PEPPER HASH

F. G. Long Beach, requests a recipe for pepper hash made without cooking.

Run through the meat grinder eight seeded green peppers, eight seeded yellow peppers, ten peeled onions, two bunches of white celery, and one small cabbage; place in bowl and mix with one and one-half cupfuls of oil, stand over night, drain and squeeze out all of the juice. Place in a bowl, pour over four cupfuls of vinegar, two cupfuls of sugar, two tablespoonfuls of white mustard seed, and two tablespoonfuls of celery seed. Mix well and seal in small jars.

SPICED PEACHES

H. K. L. Sawtelle, would like a recipe for spiced peaches.

Place in a saucepan six cupfuls of sugar, add one tablespoonful of whole cloves, four tablespoonfuls of broken cinnamon, one tablespoonful of whole allspice, and two cupfuls of vinegar; stir and boil until the sugar is dissolved, pour over seven pounds of clean, sound, ripe peaches and let stand over night; drain off the syrup, bring to a boil, let stand over night; place peaches and syrup over the fire and boil until the peaches are tender. Pack the peaches in jars, boil the syrup until thick, pour over the peaches and seal.

ONE DEAD, ONE HURT IN AUTO COLLISION

Perry Henderson, a negro messenger for the Hellman Bank, was killed and James Mathews, a negro bank employee, was injured when their cars were struck yesterday by an automobile of the Fry H. Overholser Company. The crash took place at Twenty-fifth and Hill streets. Henderson was thrown out of his car first and suffered a fractured skull. The ambulance was driven by H. L. Parker. The police decided he was not to blame.

WILBUR WILL SPEAK

Secretary of the Navy, Wilbur, who will be the guest of Los Angeles Thursday and Friday, will be the chief speaker at the Optimists' Club luncheon Thursday noon.

YOUNG MOTHER IS FREED

Judge Says Baby for Whom She Wrote Worthless Checks Should Not be Made to Suffer

That a baby should not be forced to pay the penalty for a crime of which it was the unwitting cause, Judge Hardy yesterday released the baby's mother from jail and promised her if she should make good the worthless checks she had issued within a reasonable time she should have probation.

The mother is Mildred Mansfield, 22 years of age. She pleaded guilty yesterday to a charge of issuing worthless checks to the amount of \$150. She threw herself on the mercy of the court, however, and asked that she be given another chance because the checks were written, not for herself, but that her baby might be dressed in pretty clothes.

After listening to the mother's story of her separation from her husband, of her forced economy on her scanty income and the desire for pretty clothing for her 15-month-old baby, which finally overcame her, Judge Hardy granted the request.

After telling Mrs. Mansfield that her duty to the child not only was to keep her name unblemished but to give it a home with its father, Judge Hardy ordered her to make good the checks, try to bring about a reconciliation with her husband and to return to the court periodically to report her progress.

The girl was released in the custody of her attorney, S. S. Hahn.

INDICTMENT THROWN OUT AT HEARING

Charge of Impersonating Officer Will be Taken Before Grand Jury Again

A demurrer to the indictment of W. S. Jeffries on a charge of impersonating a Federal officer was sustained yesterday by Federal Judge Bledsoe. The matter will be taken before the Federal grand jury for another hearing, it was stated by Asst. U. S. Atty. McGann.

The indictment was declared faulty by Judge Bledsoe. In it did not set out sufficient grounds of fraud in the alleged impersonation.

Jeffries, who used several other names, threw the bootleggers of numerous communities in Southern California into severe cases of nervous disorder about two years ago, officials said. He is declared to have had a "sudden" whereby many asserted bootleggers were ensnared in the toils of the law to the great enrichment of the municipality and of himself.

He is said to have been particularly effective against physicians and druggists. Many of these came into local police courts and paid large fines. Afterward certain of these stated that they had done so under duress.

At Fullerton and Long Beach Jeffries is declared to have entered places on the pretext that he was a Federal officer. Agents of the Department of Justice took up the trail and the indictment followed.

EX-POLICE OFFICER IS GIVEN LONG PENALTY

S. H. Millsap, former police officer, was sentenced to San Quentin for from one year to life for robbery yesterday by Judge Walton J. Wood of Superior Court. Former patrolman was accused of having held up participants in a number of poker parties here and was convicted of robbing the players in a fan tan game in a South Main-street hotel.

AGREEMENT SEEN
It is believed, however, that the Cleveland authorities have an agreement with Kirby, and that he is awaiting the officer at which time he will give himself up.

Kirby, a man still under middle age, has had one of the most remarkable financial careers in the United States. Starting in Cleveland shortly after the outbreak of the World War, he built up in a few years a business of gigantic proportions, housed in a skyscraper which was the marvel of the Middle West. About two years ago he came to Los Angeles and started a branch concern, which, however, ran about of State Corporation Commissioner Daugherty's edicts, with the result that Kirby was indicted.

ACQUITTED HERE
He made an attempt to leave the State, and was arrested on an East-bound train at Pasadena. He was

PLANT HEAD IS SELECTED AS RECEIVER
Van Camp Cannery Put Under Court Control in Friendly Action

In a friendly court action yesterday, Federal Judge McCormick appointed S. W. Burford as receiver for the Van Camp Seafood Company, a large canning concern of San Pedro. Mr. Burford is president of the Van Camp Company. His bond of \$25,000 was approved yesterday afternoon and he immediately took over his duties.

The action was characterized as friendly by attorneys in the case, who stated that the complaint was filed so that the company might have an opportunity to work its way out of temporary financial difficulties without outside interference.

The bill of complaint was filed by C. J. Gordon, local sales manager for the American Can Company. The complaint was drawn by Attorney Shirley E. Meserve. It was stated that the can company filed the action to protect the rights of itself and other creditors. The total debt of the company was stated to be \$134,411.

The company has at present enough manufactured goods to pay all its unsecured paper and other debts, the complaint stated, but immediate sale was forced upon it to dispose of the goods at reduced prices.

The answer of the company admitted all the allegations of the complaint, and asked the court to

take control of the assets of the concern and to direct its progress and oversee its financial activities. Attorneys Bauer, Wright and MacDonald represented the Van Camp Company.

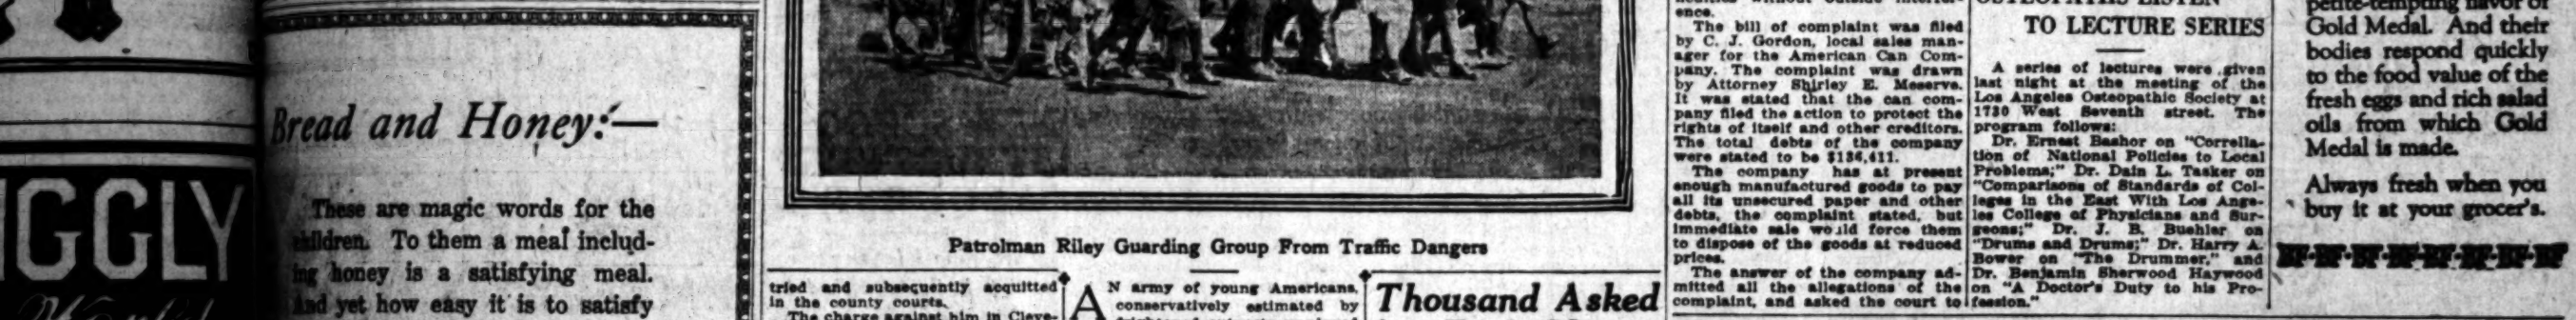

CONTRACT APPROVED
Councilman Gregory Only One Against Street-Cleaner Deal

Councilman Gregory yesterday alone voted "no" at the City Council session on approving a contract with the Kimball Motors Corporation for the purchase of six vacuum street sweepers at a total cost of \$4,000. The contract was, therefore, approved.

Councilman Gregory said that he would not approve of the "taxpayer's" money being spent for sweepers until he was convinced that the machines were working efficiently and were worth the price paid for them. He said that he recently followed one of the vacuum sweepers now in use and that he was not satisfied with the work it did.

OSTEOPATHS LISTEN TO LECTURE SERIES
A series of lectures were given last night at the meeting of the Los Angeles Osteopathic Society at 1730 West Seventh street. The program followed:

Dr. Ernest Bashor on "Correlation of National Policies to Local Problems;" Dr. Dais L. Tasker on "Comparisons of Standards of Colleges in the East With Los Angeles College of Physicians and Surgeons;" Dr. J. R. Bushler on "Drums and Drums;" Dr. Harry A. Bower on "The Drummer;" and Dr. Benjamin Sherwood Hayward on "A Doctor's Duty to his Profession."

Patrolman Riley Guarding Group From Traffic Dangers

Thousand Asked for Each Minute He Spent in Jail

One thousand dollars for each minute he spent in jail is demanded by Max Maxson in a damage suit filed yesterday against H. J. Wertheimer, a Chicago detective, who arrested Maxson and lodged him in the Pasadena jail for ten minutes.

Maxson was arrested by the Chicago officer recently on a charge of failure to provide for his wife and family in Chicago. Maxson obtained his release on a writ of habeas corpus returnable today. On the 6th inst. Wertheimer, according to the complaint, met Maxson on the street and again arrested him, taking him to Pasadena. There Maxson produced his writ and was released.

The complaint charges the detective with false imprisonment.

GUILTY OF BEGGING
Gregory Sandifer and his wife, both blind, were found guilty of begging yesterday by a jury in Police Judge Pope's court. They will be sentenced tomorrow. Police testified the pair were begging with a tin cup at Fifth street and Broadway.

DRY GOODS STOLEN
Breaking into the wholesale dry goods store of Ehlers & Fahey at 304 East Ninth street, early yesterday morning with a chain and jimmy, burglars took \$600 worth of textiles, according to a police report.

ZIPPIY BILL
Violinist Calls Down
Rowdy For Disturbance
By Grace Kinsley
A lot of excitement on the bill happened yesterday at the Orpheum. A rowdy up in the gallery pretended to be weeping loudly while Duci de Kerejaro was playing "Home Sweet Home" on his violin. When the artist had finished the selection, he spoke in language of his heart when playing as "Home Sweet Home," and he didn't know why for so man in the gallery, made a funny noise. Everybody in the audience sympathized with se Dukie, and gave him so loud hand, to se probable discomfort of se gallery bum.

SLOW BILL AT PANTAGES
While a rather slow program is on the boards at Pantages this week a number of good acts are lined up. The bill that manager se bring the show to a successful close. Chief Bill Cloud and his Indian synopators prove to be the headliners on this week's program. His organization presenting a number of fascinating musical numbers as well as a few novelty features by the leader himself. A talented girl assistant gives a splendid vocal number, costumed as an Indian. "Bohemian Nights" is an act of sprightly dancers and singers, featuring a number of talented artists. Seonic effects and costumes play an important part in the presentation of the act. Jimmy Smith and Charles Allman in "Bite of This and That" remove some of the gloom that appears on the stage by giving a varied entertainment of joshing and harmonica playing. One of the boys is a serious-faced colored gentleman who makes other boys smile.

Novel Acts
Are Offered
at Hillstreet
It seems that every time Bill Robinson comes to town he brings with him an act that is bigger and better. At the Hillstreet this week he gets all the vociferous applause as a result from his clever steps and joshing. First of all, Bill is a real stepper and can be depended upon to give the audience a show that is not only injected speed and technique in his dancing number but he also has a decided personality that fairly bubbles out. His smile is a sure-fire winner.

STORY OF MOTHER LOVE
Mary Carr and Johanne Walker to Be Seen Together Again
The Mission Theatre announces the forthcoming engagement of Emory Johnson's latest production, "The Spirit of the U.S.A." starring Mary Carr and Johanne Walker. The story is a beautiful one, dealing with mother and son, the first time these players have been seen together since their memorable portrayal in "Over the Hill".

A LUCKY ACCIDENT
Remon, Once Cartoonist and Director, Actor by Chance
Larry Semon is a motion-picture actor by accident. Years ago he started as director of two-reelers. One day he needed a certain type of actor and couldn't find one. He did the part himself. Ever since—and that was nine years ago—he has been before the camera. The latest of his efforts—and the first feature-length comedy he has ever made—"The Girl in the Limousine," is being shown at Miller's this week.

PLAYDOM
"STEPPIN' HIGH" DOES
BEST OF DARKTOWN REVUES
THAT HAS PLAYED HERE
By Edwin Schallers
Now is the time for all good seekers after novelty to step down to the Philharmonic Auditorium and purchase a ticket. There is a colored folk show there that is a winner. It glories in the name of "Steppin' High," and performs the trick implied in the title as neatly as anything of the kind that has ever come to town.

NEW SHOE SHOP
REVEALS STYLEWetherby-Kayser Company
Opens Modern StoreFashion Revue Shows Array
of Modish FootgearStock and Fittings Express
Latest in Trade

BY OLIVE GRAY

During the opening of the new store of the Wetherby-Kayser Shoe Company, 727 South Broadway, Emil Kayser and his associates beamed upon hosts of visiting friends who offered felicitations.

This, the fifth store inaugurated by this establishment, is the fulfillment of an ideal long cherished by Mr. Kayser. The store is a model of modern shoe stores, and the company are more on the order of specialty shoe stores, but the one opened yesterday presents complete lines of all classes, from the moderate-priced wear to the high novelties for which exclusive patrons are glad to pay according to merit.

Much stress is laid upon the below-stairs store, which is, in fact, a complete establishment in itself.

The main floor sales salons present an air of commodious elegance, the well-furnished salons of the below-stairs store, which is, in fact, a complete establishment in itself.

FACADE ATTRACTIVE

The facade of the new store is a masterpiece of modern architecture, the manner of display and the new models in footwear receiving much favorable comment.

A graceful mannequin adds a sense of airiness to the main floor. There are provisions for comfort and rest of employees and of patrons, and a novel feature is presented in the "playground" connected with the children's department. Here, while parents are deciding upon the style and price of their shoes, little ones may enjoy themselves with toys, toboggans, etc. Office and stock rooms throughout the new store are well lighted and the overhead indirect lighting system combined the same effect into the evening.

Last evening's style revue, from 8 o'clock to 10, was enjoyed by an interested audience. The latest modes in shoes, hose and shoe accessories were accompanied by a proper costume, the latter newly arrived from Paris headquarters of The Union. Beautiful mannequins, appearing upon the broad stairway, promenade throughout the lower floors, when they are especially interesting ensemble was presented.

SHOE STYLES SHOWN

Shoes for every occasion from the most formal to the everyday were shown, outstanding features presented being: that shoes are less ornate than in former years, yet more distinctly coordinated with costumes for each season of dress. Leathers, especially patent, either alone or combined with dull or mat and itself favorably to the tailored suit or dress; materials of cloth and broader to well with the evening gown, satins are for afternoon and restaurant wear.

The new high Spanish heel is evident, although it by no means replaces the French heel. In hose, also, new styles are being worn, the cinnamon shades, blonde, champagne and silver gray, costumes, all Paris creations, especially designed for The Union. The new silk, satin, lace, velvet and dry, lace, embroidered in beads, with sumptuous brocades of velvet on crepe or chiffon, and intricately beaded, and in these, the new high Spanish heel slipper was worn.

A coat-dress in shades of orange, lace velvet, was innocent of trimming save for the row of closely set, gold and black buttons traveling from chin to hem, and the black braided collar set demurely around the neck. A dress, fitted, closely extended to a point over the shoulders and the plain skirt revealed a similar fare at either side. A black hat of solid and French beaded slippers of black satin with novel cut-out effect, completed this strikingly simple, yet sophisticated, costume. Gown with touches of silver, in cloth, embroidery or lace, consorted with slippers of silver brocade, those presenting glints of gold had this note emphasized by the gold brocade footwear with matching hose. Handbags of great beauty, unusual handkerchiefs, head pieces and colorful scarves, accompanied the costumes.

Not Complimentary

The son of a Boston lawyer at the end of his first term in college exulted in the fact that he stood next to the head of his class.

"What! Next to the head?" exclaimed his father. "What do you mean, sir? I'd like to know what you think I sent you to college for! Next to the head? Why, aren't at the head, where you ought to be?"

The young man, naturally crestfallen, worked hard on his return to college that the end of the term found him in the coveted place. He went home very proud indeed.

The lawyer contemplated his son for a few moments in silence; then, with a shrug of his shoulders, remarked at the head of the class. "Humph! That's a fine commentary on Harvard University!"

Tacoma National Park is said to be the only place in the world where silk and tulle may be used in July.

CHOSEN GRAPE FESTIVAL QUEEN

Dancer to Reign at Escondido Fete

Helen Doty

THROUGH the courtesy of R. C. Wohlford, president, and D. W. McDannald, secretary, of the Escondido Chamber of Commerce, Miss Helen Doty, dancer and former member of Ziegfeld's "Bally" company, and more recently a resident of Los Angeles, was selected queen of the Chamber of Commerce booth and float during the celebration of "Grape Festival Day," which will be held during Admission Day.

Ten tons of sun-sweet grapes grown in the Escondido Valley are expected to journey to the south-ern city to participate in the day's festivities.

The sponsors of the event plan to take care of 25,000 people.

WOMEN JOIN
KLAN REVOLT

(Continued from First Page)

ing that nothing more than a Klan meeting was in progress.

Tom Lewis, formerly Exalted Cyclops of Klan No. 2, and now the acknowledged leader of the Klan rebellion in Southern California, was present. From remarks made by the leaders of the Klanwomen it seemed that he was invited by them to be their guest and watch them bolt the organization.

CITIES REPRESENTED

According to Mrs. Leonia Cole, formerly Klondike, or lecturer, of Klan No. 1, Women of the Ku Klux Klan, the rebellion, which is the hill last night represented the women's organizations in Los Angeles, Venice and several other Southern California cities.

The police car reached the top of the hill just before the assembled women took a new oath of allegiance to the order, which, it was said by those present, is to be known as the Independent Order of the Knights of the Ku Klux Klan of America.

The sight that greeted the eyes of the police was a weird one. Standing in a large circle, and clasping one hand over the wrist of the next one in line, the women wore strange pictures in pale green light of the night. More than 150 automobiles, parked in rectangular formation, formed the backbone of the picture.

At the western end of the group of women, who did not wear robes, stood a woman in a black and white party covered with the hood. Directly in front of the white-clad figure was a gray-haired minister, who later delivered a benediction.

TAKE SOLEMN OATH

About twenty feet away from the women, was a larger ring of men, most of them clad in the white robes of the Klan.

In taking their oath to the new organization, the women repeated the words of the obligation after the minister, who said, "I am a member of the Independent Order of the Knights of the Ku Klux Klan of America."

Tom Lewis, the leader of the Klan insurrection, was cheered lustily by the "Kluzettes" when he pledged himself to the work of cleaning up the Klan and living up to the best ideal of knighthood. The women, who seemed to be the leader of the women, also urged the women to be loyal to the new order and to stand for the right principles.

SECOND POLICE CALL

Just before the ceremony of burying the old constitution and by-laws of the Klan took place, the second police car arrived bawling and spurring on the top of the hill. Several Klansmen met this car and after a brief conference the policemen departed with assurance that everything was in order and no person or thing except the constitution and by-laws of the Klan was in danger.

Last night's meeting, the Klanswomen presided, was the first step in a movement that will take the majority of the women out of the old organization. The women's grievance, they said, is that the constitution and by-laws of the old Klan are despotic and that Klan leaders have been attempting to throttle free speech and the exercise of the political rights of the women members in the last election.

OWENS VALLEY
ACTION URGEDDel Valle Says Immediate
Attention EssentialHead of Public Service Body
Replies to WomenCity Must Meet Situation
Justly, Says Baker

"It is essential to the city of Los Angeles that the Board of Public Service Commissioners, engineers and officials of the Bureau of Power and Light give this situation the most immediate attention."

This excerpt from the reply of R. F. Del Valle, president of the board, to a delegation of women representing half-dozen town's organizations of the Owens River Valley, which presented a plea for action seeking the settlement of the controversy at the head of the aqueduct, may be taken as representing the attitude of a majority of members of the "peace commission" now considering the matter after a week's visit to the district. The party returned Sunday.

The reply of President Del Valle in full, clearly indicated that the board appreciates that, whatever the engineering aspects of the situation in and around Bishop may be, there is a sociological issue that must be met.

NOT CAMOUFLAGE

"We shall determine this question as soon as possible," President Del Valle continued. "It may take a month to digest what we have learned during this visit, but there shall be no unnecessary delay in our deliberations. This is not camouflage."

In a statement to members of the press party which accompanied the commission into the valley, James B. Baker, another member of the board, said:

"The city of Los Angeles must adopt a policy the settlement of which, whatever form that justice takes, will be a matter of time. The city has been misled by the city in building the Aqueduct and in dealing with the people in this district affected through its construction, but it has not been to be wondered at in a project of the size of the Aqueduct."

SEEKS ADJUSTMENT

"I am convinced that there is nothing in the situation here which cannot be adjusted to the satisfaction of both sides," he said. "The Owens Valley and the officials of the Bureau of Power and Light."

No inside the city has been given by the Board as to when it will meet executive to give official consideration to the problem, and it is improbable that any such meeting will be held within the next week. The individual members must digest what they have seen and learned during the trip to the source of water supply of the city of Los Angeles.

It is certain that the safeguarding of the water supply of the city will play an important part in the deliberations. These commissioners who visited Owens Valley returned convinced that right or wrong the ranchers of the Owens Valley will carry through the fight to force settlement of the city to the bitter end, believing themselves to be right.

LOANS REFUSED

One of the major complaints of the ranchers and business men of the district against the city of Los Angeles, charged that the city's refusal to make further loans on Owens Valley land, that fire insurance companies will no longer insure policies in the district, and that the land has been bereft of practically all sale value.

Whether the board will concentrate on a policy under which the land of the valley at a price to be set by an unprejudiced commission agreeable to both city and ranchers, or whether it will attempt to rehabilitate the district through the development of highways and the adoption of a policy under which the financial difficulties of the ranchers will be removed or alleviated through credit, remains to be seen.

There is, unquestionably, an economic or, if you prefer, a sociological question, as an equity difficult to appraise, but nevertheless existent, of which the board will undoubtedly take cognizance. William Mulholland, chief engineer of the Bureau of Power and Light, builder of the aqueduct and repeller of the ranchers as the most inimical force opposed to them, stated in an interview since his "turn" from the trip to the valley that the city's problem, however, is the physical facts. There is no sense in buying land that cannot be developed.

Against cold engineering facts, it appears highly probable that the Public Service Commission will weigh that sociological aspect and that it will consider the possibility of violence which might easily jeopardize the welfare of a community of over 1,000,000 people in the cramping of the aqueduct.

Final Rites for Foster Widow Set for Friday

Funeral services for Mrs. Bertha M. Foster, widow of a wealthy New York glove manufacturer, who died Sunday at the Ambassador hotel, will be conducted at the W. Brown Undertaking Company parlors Friday afternoon at 3 o'clock. Rev. J. Whitcomb Foster, pastor of the First Baptist Church, will officiate. Burial will be in the Woodlawn Cemetery, New York City.

FORERUNNER OF
PEACE CARILLONOld Town Clocks of Holland
and BelgiumDeveloped Through Rivalry
Between TownsAn Index Musical of Social
and Political Progress

(Christian Science Monitor)

The old town clocks of Holland and Belgium, centuries back, were the forerunner of the National Peace Carillon Tower, to be erected in Washington as a memorial to the sacrifices and ideals of the American people during the World War.

The origin and development of the carillon is a rich, luminous chapter in musical history. In the distant centuries, when the preface to its legend is being written, watches and clocks were rare in the Low Countries. Townsfolk and the peasants of far-reaching miles of country were dependent for knowledge of the time of day and night upon the town clock. It became the custom to give warning of the hour by the tolling of the hour on the great bell by a premonitory play of three or four small bells—it was called "voorstel"—also connected with the tower clock.

Friendly rivalry between towns grew up. The means of each town's pride was taken in the number of bells in the tower of its civic center. Bells were increased in number, and the scale of tones and half-tones was extended. Finally, through the addition of bells, a chromatic octave was achieved, making it possible to play little melodies at the hour, the half-hour, the quarter-hour. Early in the history of carillons, playing was automatic, by means of a cylinder which was connected with the clock tower. There came a day when a keyboard was devised for the purpose. Its power was enhanced by the addition of pedals controlling the bass bells.

The office of carillonneur has been created. The carillonneur was given official civic standing because of its importance to the community. Thus gradually the carillon and art were so developed that, one day, the Belgian Journal of the Royal Society of Arts came to say that the carillon with the elavir is the finest musical instrument in existence for educating the people in and cultivating their love for folk songs, and in teaching them the melodies of their fatherland.

USEFUL AS WELL AS ARTISTIC

No aside from its musical flavor the history of the carillon has been as well, a history of the social and political progress of its countries. Sometimes it has hung in the tower of the ancient city gate. Sometimes in the market building tower in the tower of the library. It has been in the hall of the City Hall or in the town hall of the abbey. When a Flemish city bought a carillon it was formally welcomed by the burgomaster and people, and the bells were consecrated with elaborate ceremony. Carillons in these days were esteemed an essential part of the useful equipment as well as of the artistic adornment of a city. A creative Netherlands municipality. Their care, their proper playing, their enlargement were constantly under discussion. Sometimes the carillon was employed to decide questions relating to the city. When the great cylinder of the new carillon of Brussels was installed in 1746 the people themselves drew it through the streets of the city, and the second of February, when it was first used, was declared a general holiday.

Wherever carillons have been in Europe they have sounded the triumphs of their people, the rise and fall of civic pride, the triumphs of the nation, the triumphs of the world. They have gloriously sounded "in the heart of the city" for peace and rebirth. They have gloriously sounded the civic solidarity of the community. They have stood quiet monuments to the dom loving wool staples of the thirteenth century. Thackeray wrote of the carillon of the Low Countries in his "Roundabout Papers." Longfellow paid delicate tribute to the bells of Bruges on a trip there in 1842. Dr. Drake, a carillonneur, as soldiers, has been below his tower in the Grande Place, where drawn—oxidized biots in an ominous question, as Rembrandt's Tower in Mechin, perhaps the most elaborate and beautiful of the carillons of the world, was struck seven times during the bombardment of August and September in the first year of the war.

The carillon, then, has been a part of the life of the city, a part of the life of the nation, a part of the life of the world. It has been a part of the life of the city, a part of the life of the nation, a part of the life of the world. It has been a part of the life of the city, a part of the life of the nation, a part of the life of the world.

FEW IN AMERICA

The office of carillonneur has an importance nearly as rich as the bells themselves. He must be a musician, a composer, a pianist, a person, picked haphazard because he knows one note from another. He must be able to control the art under the emotions of an old civilization with an honorable history in order that its traditions may be expressed and added to through the medium of his music.

America has few carillons. There is one in Gloucester, the little fishing village huddled on the coast of Massachusetts. In summer, each evening, when fog lies like platinum lace over the wharves or when the sun rides away like a flaming phantom with wings of lilac and saffron and crimson, behind the dusky purple hills, the first notes of the customary evening concert mark a strange hush that falls over the town. The pageantry of sunset is merged with the slow pageantry of Bach, and the folk in the village who worked so proudly to purchase the first carillon in this country stop to listen. They remember babies stop their noisy games and listen, too.

The noted Phillips Academy, Andover, Mass., has a carillon, while a church in New York City also has one, the gift of John D. Rockefeller, Jr. The carillon of the United States has plenty, beautiful and exquisite examples of the bell making art. But in the past season and experience of carillons America is still young. With the plans for the great Washington Peace Carillon there has been a rumor of the establishment of a school for carillonneurs. It will reasonably be expected that the country will yield much demand for graduates of such a school. Yet if the United States is to have, as European

RISK DEATH IN CAR TO
AVOID HITTING WOMANPOLICE ANSWERING CALL
SUFFER INJURIES IN
CRASH INTO TREE

By a "Times" Staff Correspondent

LONG BEACH, Sept. 8.—Two patrolmen tonight risked death in a motor car in preference to running down a woman carrying a baby. The officers, Patrolmen Heine and Harvey, were answering a fire call in a police car and were traveling at a high rate of speed. At the intersection of Third street and Magnolia avenue a woman apparently not hearing the warning siren, stepped into the street in the path of the speeding car.

The officer at the wheel did not hesitate, but swerved his car and crashed with terrific force into a tree. Heine's left car was torn away and he himself was badly injured. Harvey's car was also damaged and he was injured.

The woman and her baby were not hurt. The woman was taken to the hospital and the baby was taken to the hospital. The officers were taken to the hospital.
